

**Report of the Task Force
for Review of the
General Financial Rules, 1963**

**Government Of India
Ministry of Finance
Department of Expenditure**

JULY, 2004

INTRODUCTION, TERMS OF REFERENCE AND APPROACH

General rules governing financial transactions by the Government of India, its attached and subordinate offices are contained in the General Financial Rules, 1963 (GFR) and Delegation of Financial Powers Rules, 1978 (DFPR).

2. The General Financial Rules were first issued in 1947 by consolidating in one place the provisions of the Book of Financial Powers, the Civil Accounts Code and other orders and instructions of a general financial nature which were in force prior to Independence. These rules and orders were to be observed by all authorities and departments under the Government of India except where specific exemptions were indicated. These rules were further revised and updated in 1963 by incorporating orders issued subsequent to the first edition. Broadly the GFR, 1963 dealt with the general systems established for :-

- (i) Receipt of Money and Expenditure from public funds including powers of sanction.
- (ii) Maintenance of Accounts.
- (iii) Contracting on behalf of the Government of India.
- (iv) Preparation of Budget estimates, communication, distribution of grants and control of expenditure.
- (v) Procurement, disposal and accounting for stores.
- (vi) Expenditure on public works
- (vii) Expenditure on public objectives through State governments and non-government organisations by means of grants-in-aid and loans.

(viii) Other miscellaneous matters such as advances to Government Servants, financial obligations of the Government etc.

3. The original rules numbering 300 (excluding sub-rules) included in GFR 1963 have been supplemented and amplified by 245 Government of India Decisions issued from time to time during the past forty years. A large number of the original rules have fallen into disuse due to changing business and legal environment within and outside the country. Though these regulations have served the objective of management controls well, rapid changes in working conditions have made it imperative for the Government to review the General Financial Rules, 1963 to bring them in line with the requirements of the day.

4. In view of the above, the Government of India, Ministry of Finance, Department of Expenditure, constituted a Task Force to review the GFR, 1963 vide O.M No. F. No. 8(9)/E.IIA(A)/03 dated 10th January, 2004. The composition of the Task Force is as follows:-

5. Terms of Reference given to the Task Force were as follows :-

- (i) To carry out a comprehensive review of the General Financial Rules, 1963 including its Appendices and various forms, with a view to promoting efficiency and transparency in the Government financial system and procedures, keeping public interest in view. The Task Force was to review the GFR to see that these are not outdated or redundant and are in tune with the imperatives of a liberalised and growing economy.
- (ii) To make suitable recommendations for consideration of the Government in this regard.

6. The Task Force was empowered to co-opt members, if required. The following two experts were co-opted as members.

- (i) Sh. R. N. Ghosh, Former Addl. DG (S&D), Consultant, NIFM.
- (ii) Sh. S. M. Kumar, Jt. CGA,

7. Sh. T. R. Bhateja, former Deputy General Manager, India Trade Promotion Organisation, was involved in the work as a Consultant to the Task Force. In addition the Task Force was helped by several others in its efforts. The most prominent among those who made substantial contribution to the recommendations of the Task Force were:-

- (i) Sh. B. S. Ramaswamy, Former Addl. Secretary & FA (Ministry of Steel & Mines) and Consultant, NIFM.
- (ii) Sh. S. K. Jana, CCA, Ministry of Consumer Affairs, Food and Public Distribution.
- (iii) Ms. Meena Chaturvedi, Professor, NIFM
- (iv) Ms. Ranjana Jha, Director (Finance), Department of Food and Public Distribution.
- (v) Sh. S. K. Nayak, Under Secretary, Department of Consumer Affairs.
- (vi) Sh. S. R. Gupta, Consultant, CGA office
- (vii) Sh. S. C. Goel, Desk Officer, Department of Food and Public Distribution.

8. The Task Force invited the views of a large number of Ministries / Departments of the Government of India and also held consultations with representatives of these Ministries / Departments. Views collected from these Ministries / Departments as well as record of deliberations of the Task Force have been enclosed with this Report. In making its recommendations regarding 'Procurement Systems' the Task Force was also guided by the **Report of the Task Force constituted in 2003 for "Revision of Norms for Procurement of Goods and Services by Government"** under the Chairmanship of then Additional Secretary (Expenditure), Shri Dhirendra Swarup.

9. Within the Terms of Reference, the effort of the Task Force has been to give a framework of financial rules which, in addition to economy and financial control, will also ensure efficiency, effectiveness and transparency in Government financial transactions. The Task Force kept in view the rapid growth of alternative service delivery systems, developments in information technology and rising public expectations of efficiency and speedier delivery of quality service from Government. The Task Force has attempted to provide a system of financial rules characterized by flexibility, real delegation of powers and accountability. In view of the need for an adequate framework to support the strategic alliance between the Central Government, State Governments and Civil Society organisations in delivery of services to the public, the Task Force has attempted to strengthen the systems for resource transfer from the Central Government to such organisations.

10. The Task Force reviewed the existing rules as well as the plethora of Government of India Decisions with the following basic approach :-

- (i) The existing rules were reviewed taking into account recent developments in the financial sector, availability of new instruments in banking, insurance, material sourcing, information technology, communications, etc.
- (ii) Cumbersome procedures, causing unnecessary movement of papers between several layers of Government, have been simplified, devolving necessary authority, responsibility and direct

accountability on the vital functionaries in Government to ensure speedier decision making.

- (iii) Instructions relating to general financial management were earlier included in Chapter 2, 3 and 4 with extensive cross referencing between the Chapters. The relevant rules on each aspect have been incorporated in a single **Chapter on 'General Principles of Financial Management'** which now deals with receipts, payments, sanctions and loss to government, submission of records to appropriate authorities etc.
- (iv) The earlier instructions in GFR 1963 contained in a chapter titled Stores, supplemented by Appendices 8, 9 and an Annexure, were found to have become largely redundant and sometimes a hindrance in the day to day functioning of Government. The chapter on Stores also made no distinction between procurement of routine goods and procurement of sophisticated machinery and equipment, providing no flexibility for the operating departments to mould the system to requirements. The Task Force has attempted to build in this flexibility in procurement procedures and adopted tested international practices in a completely new **Chapter on 'Procurement of Goods'**. The Task Force has taken into account the need for the system to be based on trust while providing for direct accountability of officers entrusted with public funds. The present requirement of obtaining quotations for petty purchases has led to a system whereby fake quotations are obtained from fictitious

traders just to provide cover to officials against charges of arbitrariness in purchases. While quotations are essential for high value procurement, the system for small value purchases upto Rs. one lakh has been liberalized to ensure speedier decision making. However, direct accountability of entrusted officers has been ensured by a system of personal satisfaction certificates.

- (v) The Task Force carefully reviewed the financial limits for issue of open tenders and limited tenders as well as provisions dealing with procurements on single tender. The existing limits for issue of open tenders are now completely impracticable in view of the cost of advertisement. The Task Force has revised the limits to be commensurate with the cost in financial terms as well as with the time and effort involved.
- (vi) Detailed guidelines have been incorporated to ensure transparency, competition, fairness and elimination of arbitrariness in government procurement process. Procurement systems have been comprehensively overhauled, taking into account the concern for quality in Government procurement. Taking advantage of the developments in information technology, the Task Force has provided for circulation of Notice inviting tenders through web sites and for submission of tender documents downloaded from web sites by paying the price of tender documents alongwith the bid. The Task Force recommends that the Government may eventually move towards electronic submission of bid documents after

providing necessary security and validation procedures for such electronic bids.

- (vii) In order to ensure speedier decision making and efficiency in carrying out government activities, the Task Force has favoured greater decentralisation and delegation of powers and responsibility to Government Departments. The role of expert organisations such as DGS&D, has been envisaged as facilitating efficiency in procurement of goods rather than as a centralized procurement agency. This may require modifications in the relevant DGS&D Manuals.
- (viii) Growing complexities in management of government affairs often require engagement of subject matter experts as consultants. The phenomenon of engagement of consultants / experts to carry out government assigned tasks was not addressed in the extant GFRs. A new chapter providing for **Procurement of Services** has been included in the GFR, 2004. The chapter contains detailed instructions for guidance of officers dealing with engagement of subject matter consultants as well as outsourcing of services.
- (ix) For carrying out minor works for repairs and maintenance of government buildings under their control Government Departments presently require a reference to CPWD. This monopoly has led to perceived inefficiency in the Central Public Works Department and consequent delays and poor maintenance of government assets. In its **Chapter on 'Works'** the Task Force has, therefore, suggested

greater delegations to concerned Ministries/Departments for carrying out minor works as well as the option to approach other works organisations established in the government / public sector for executing these works. This may entail, however, concomitant revision in the CPWD code.

(x) The Task Force took into account the concerns expressed by the Expenditure Reforms Commission regarding Autonomous Organisations while formulating its views on the rules relating to grants to such organizations. Implementation of Centrally Sponsored Schemes has been an area of concern. The views of various Committees of the Planning Commission in this regard were also taken into account and the Task Force has incorporated specific provisions addressing these concerns in the relevant **Chapter on 'Grants in Aid'**.

(xi) A major area of concern in government financial management has been its poor management of assets. The extant rules contained in GFR, 1963 deal with issue and disposal of stores from Rules 123 to 125. The rules have been updated and supplemented to the extent necessary and incorporated in a separate **Chapter on 'Inventory Management'**. The chapter provides detailed guidelines for maintenance of assets and connected records/accounts. Procedures for disposal of obsolete assets have been rationalized. The Task Force also noted with concern that the existing system for accountal of Government assets makes no distinction between

ordinary assets and assets of historic or artistic value held by government departments. This often leads to neglect of such assets. The Task Force has prescribed for records of such assets to be kept separately with instructions for their proper maintenance.

(xii) Instructions to government officers relating to Contracts executed on behalf of Government were earlier incorporated in sub-chapter IV to the existing Chapter 2. These were further amplified by various Government of India Decisions. While the basic principles enunciated in GFR, 1963 continue to be valid, the Task Force was of the view that the existing system for management of contracts needed to be streamlined in keeping with present requirements. Consequently, a new **Chapter on 'Contract Management'** has been incorporated in the GFR, 2004 reflecting the changing international and domestic business environment and precautions to be observed in dealing with contractors entrusted with Government business.

(xiii) In addition to contracts for procurement of goods, works and annual maintenance of special equipment, recently the Government has been entering into contracts such as Management Contracts, Leasing Contracts, Service Contracts, Build, Own and Transfer (BOT) Contracts and variations thereof. As these are usually long-term contracts involving high risk, the Task Force is of the view that these contracts should provide clauses specifying the types of approvals, clearances which the private parties are to obtain,

performance parameters, regulatory mechanisms and management measures for such contracts. However, since it is an evolving area, the Ministry of Finance may like to get such mandatory clauses prepared by Ministry of Law for guidance of officers dealing with such contracts.

- (xiv) The General Financial Rules, 1963 had no instructions with regard to projects funded with external aid / loan funds from bilateral or multilateral funding agencies. The Task Force has now added a new **Chapter on 'Budgeting and Accounting for Externally Aided Projects'** for the guidance of officers dealing with such projects.
- (xv) The Government of India gives guarantees in case of funds / loans raised by CPSUs etc. As on 31st March 2003, a total of 615 such guarantees for a sum of Rs. 90,616 crores were outstanding. Management of these guarantees, including levy of guarantee fees, is a critical area of Government. The Task Force has, therefore, added a **Chapter on 'Government Guarantees'** for guidance of Government officers dealing with such guarantees.
- (xvi) The Task Force reviewed miscellaneous rules included in several chapters of GFR, 1963 dealing with establishment matters, local bodies, debt and other obligations of Government, security deposits etc. with reference to their present relevance and validity. The rules which were found relevant and necessary to be retained have been incorporated in an omnibus **Chapter on 'Miscellaneous Subjects'**.

- (xvii) The Task Force, while recognising the importance of service books for government officer's pay and entitlements on retirement and that the loss of this document entails extreme hardship for them, recommends maintenance of this document in duplicate with one copy to be retained by the official concerned to avoid unnecessary harassment in case of loss of this document.
- (xviii) The appendices and forms included in GFR 1963 were reviewed and redundant appendices and forms have been deleted while others have been amended / updated. Some new forms dealing with asset records and new areas have been added. The Task Force has retained the existing form numbers for convenience and has provided a list indicating the status of the form in the GFR 2004.
- (xix) The Task Force reviewed the existing Chapter relating to Advances to Government Servants. As can be seen from the preface to GFR 1963, powers and conditions for grant of advances to government servants, which are distinct from direct government expenditure, were earlier retained in the GFR for the sake of convenience. After careful consideration the Task Force decided to exclude these powers and conditions of advances to government servants from the proposed compilation of General Financial Rules, 2004. The Task Force recommends that these provisions and conditions be issued separately as a compendium by the Ministry of Finance. The Task Force also recommends that some of the advances such as

fan advance, winter clothing advance, festival advance, etc which are of a petty amount and no longer serve any significant purpose, be reviewed by Government. The Task Force further recommends that these assorted advances be substituted by a multipurpose, short term, interest free advance of an appropriate amount, limited to government servants of Group 'C' and 'D'. This advance can be recovered within a period of one year. This will ensure that drawal of such advances does not affect the overall budget of the organisation. The Geethakrishnan Committee set up by the Government of India in 1985 for reviewing the GFR's had also made a similar recommendation.

- (xx) The Task Force reviewed the provisions of the earlier GFR, 1963 from the point of view of logical sequencing and simplification of language. The clarifications and amplifications made through various Government of India Decisions were also reviewed and incorporated as rules, wherever necessary. The **General Financial Rules, 2004** enclosed with this report thus contains 293 Rules replacing 300 Rules and 245 Government of India Decisions of the existing compilation. A **Key** linking the new provisions and the old is also enclosed with this report for convenience.
- (xxi) During deliberations of the Task Force certain concerns were expressed by different members regarding recommendations which may run counter to various legal provision such as Indian Postal Act regarding use of couriers, e-mails etc. The Task Force is of the

view that use of new innovations should be available to government servants in carrying out government business. In view of this, the Task Force has incorporated necessary provisions in the GFR, 2004 and recommends that necessary amendments in such legal provisions be brought about so that Government can provide efficient and speedier qualitative services in the public interest.

- (xxii) The provisions incorporated in the existing Rules relating to reservation for SSI etc. in procurements by Government have been retained by the Task Force in GFR 2004 as these form part of the overall policy of Government. However, the Task Force recommends that these provisions be reviewed in the light of Government commitments under WTO as well as imperatives of efficiency and quality.
- (xxiii) The liberalised systems and procedures recommended by this Task Force may require corresponding amendments in other rules and orders issued by Government of India from time to time, including the Delegation of Financial Powers Rules 1978.
- (xxiv) The Task Force is of the view that the financial limits to be observed in determining cases relating to New Service / New Instruments of Service, require further upward revision to deal with the changing circumstances.
- (xxv) The date of notification of the GFR 2004 may be indicated in Rule 1 (2) before printing.**

Acknowledgements

The Task Force would like to place on record its appreciation of the support it has received from the Director, National Institute of Financial Management, Shri. A. N. Chatterji. The Task Force is also grateful to the officers of the various Ministries who have sent suggestions for review of the General Financial Rules.

PREFACE

The *General Financial Rules 1963* which were issued as a compendium of instructions for guidance of government officers dealing with matters of a financial nature, have been in force for over four decades. These rules and orders were to be observed by all authorities and departments under the Government of India except where specific exemptions were indicated. Over the past four decades the *General Financial Rules 1963* have been further amplified and supplemented by various Government of India Decisions incorporated along with the rules. A large number of the original rules have fallen into disuse due to changes in the environment in which government departments operate or are required to operate. Rapid growth of alternative service delivery systems, developments in information technology and the expectations of public that Government should render timely, efficient and quality service, has necessitated a comprehensive review of the government financial management systems, so as to ensure transparency, accountability and effectiveness. The *General Financial Rules 2004* incorporate instructions for guidance of officers dealing with new areas of governance such as Externally Aided Projects, Government Guarantees, Engagement of Consultants, Outsourcing of Services, etc which were not included in the *General Financial Rules 1963*. The system of procurement, accountal and disposal of goods has been liberalised, bringing it in line with accepted international practices. The rules have been simplified and put in a logical sequence for easy comprehension. The appendices and forms included in *General Financial Rules 1963* have been reviewed and redundant appendices and forms deleted while updating those retained. Some new appendices and forms have been added. However, the existing form numbers have been retained for convenience and to avoid confusion. The table of appendices and forms added to *General Financial Rules, 2004* at the beginning indicates the status of the appendices and forms. It is expected that *General Financial Rules, 2004* will fully serve the purpose of providing greater flexibility to officers transacting government business while ensuring accountability commensurate with responsibility at different levels of Government.

Only the cost of genuine improvements, which enhance the useful life of the asset whether determined by prescribed rules or formulae, or under special orders of Government, may be debited to Capital. Where under special orders of Government, a Depreciation or Renewals Reserve Fund is established for renewing assets of any commercial department or undertaking, the distribution of expenditure on renewals and replacements between Capital and the Fund shall be so regulated as to guard against overcapitalisation on the one hand and excessive withdrawals from the Fund on the other.
- (d) Expenditure on account of reparation of damage caused by extraordinary calamities such as flood, fire, earthquake, enemy action, etc., shall be charged to Capital, or to Revenue, or divided between them, depending upon whether such expenditure results in creation/acquisition of new assets or whether it is only for restoring the condition of the existing assets, as may be determined by Government according to the circumstance of each case.

Rule 94. Receipts and recoveries representing recoveries of expenditure previously debited to Capital Major Head : Receipts and recoveries on Capital Account in so far as they represent recoveries of expenditure previously debited to a Capital Major Head shall be taken in reduction of expenditure under the Major

Head concerned except where, under the rules of allocation applicable to a particular department, such receipts have to be taken to Revenue.

Rule 95. Capital cost of non-productive work to be met from ordinary revenues : As a general rule, capital cost of works which are non productive in nature is met from ordinary revenues. Borrowed moneys and other resources outside the Revenue Account shall not ordinarily be spent for non productive purposes unless the following conditions are fulfilled:-

- (b) The amount is too large to be met from current revenues.

Rule 96. Conversion of outstanding loans into equity investments or grants-in-aid : Government takes from time to time, suitable measures to strengthen/restructure the Capital base of public sector enterprises so that these enterprises can improve their performance and productivity. As a part of the package scheme, financial relief in the form of conversion of outstanding loans into equity investments or grants-in-aid are also agreed to.

ADJUSTMENTS WITH OTHER GOVERNMENTS'DEPARTMENTS, ETC.

Rule 101. Adjustments with State Governments : Subject to the relevant provision of the Constitution or of law made by Parliament or any orders issued thereunder, adjustments in respect of financial transactions with State Governments shall, unless otherwise provided for, be made in such manner, and to such extent as may be mutually agreed upon between the Central Government and the State Government concerned. However, adjustments with State Government in respect of the matters mentioned below shall be regulated by the rules contained in Appendix-5 to the Government Accounting Rules, 1990. The rules are based on reciprocal arrangements made with the State Governments and are, therefore, binding on all of them:-

- (i) Pay and Allowances, other than Leave Salaries.
- (ii) Leave Salaries.
- (iii) Pensions.
- (iv) Expenditure involved in Audit and Keeping Accounts.
- (v) Cost of Police functions on Railways including the cost of protecting Railway Bridges.
- (vi) Cost of (a) Forest Surveys carried out by the Survey of India, and (b) Forest maps prepared by that Department.
- (vii) Leave Salary and Pension Contributions recovered in respect of Government servants lent on Foreign Service.

Rule 102. Reaudit : As a convention, a period of three years has been accepted by the Central and State Governments for the reaudit of past transactions involving errors in classification.

Rule 103. When adjustment necessary : Adjustment shall always be made unless otherwise agreed upon-

- (a) If a commercial department or undertaking or a regularly organised store department or store section of a department is concerned, or

- (b) If under the operation of any rule or order, an adjustment would have been made if the particular transaction with State Government were a transaction between two departments of the Central Government.

Rule 104. Petty and isolated claims for services rendered not to be preferred:

The Central Government (which includes Union Territories) and the State Governments have agreed under reciprocal arrangements not to prefer petty and isolated claims for an amount not exceeding Rs. 2,500 against one another.

Rule 105. Criteria in determining whether a particular claim is covered by the reciprocal arrangement :

The significant criterion in determining whether a particular claim is covered by the reciprocal arrangement mentioned above, will be that the claim shall be both petty and of an occasional character and shall cover services rendered and not supplies made unless the latter forms part of service. The term "service rendered" will be taken to mean an individual act of service, like providing police escort to a high dignitary and will not apply to supply of stores etc. Claims relating to Commercial undertakings under the Government of India or the State Governments such as those of the Railways, the Department of Post, the Electrical undertakings, etc., shall fall outside the purview of the proposed reciprocal arrangements and shall continue to be settled as hitherto.

If a doubt arises as to whether a particular claim would fall within or outside the purview of the proposed arrangement, it shall be decided by mutual consultation. The above arrangements will remain in force without any time limit in respect of all State Governments.

Rule 106. Projects jointly executed by several State Governments :

In the case of Projects, jointly executed by several Governments, where the expenditure is to be shared by the participating Governments in agreed proportions, but the expenditure is *ab-initio* incurred by one Government and shares of other participating Governments recovered subsequently; such recoveries from other Governments shall be exhibited as abatement of charges under the relevant expenditure Head of Account in the books of the Governments incurring the expenditure initially.

Rule 107. Claims of State Governments, on account of the extra cost of agency functions :

Claims of State Governments, on account of the extra cost of agency functions entrusted to them under Article 258 of the Constitution shall be dealt with and settled in accordance with such directions as may be issued by the President in this regard from time to time.

Rule 108. Principles to be observed in dealing with State Government claims :

The following principles shall be generally observed in dealing with claims preferred by State Governments under Clause (3) of Article 258 of the Constitution:-

- (a) If the agency work involves the employment of a State Commercial Department, it would be open to that department to charge its normal commercial costs.

- (b) Public Works Department agency costs shall be represented by such percentage charges on the cost of Central Works executed by the State as may be agreed between the Central and the State Government concerned, works outlay being treated as an amount placed at the disposal of the State Government for actual expenditure on the execution of the work.
- (c) The cost of regular joint establishment shall be shared as far as practicable on the basis of fixed annual sums settled in agreement with the State Government concerned.
- (d) In other cases, the following procedure shall be adopted unless there are special orders to the contrary:-
 - (i) Details of claims preferred by State Governments shall be ascertained.
 - (ii) If the work has been performed by the State Government in the past, the charges shall be compared with those charged in the past but it is not necessary to be meticulous in the matter.
 - (iii) If the charges are found to be reasonable and do not exceed Rs. 20,000/- per annum for any individual item (or connected group of items), a five years' contract shall be offered to the State Government during which the Central Government would pay the fixed sum per annum for the work. The amount will be subjected to review at the end of each period of five years.
 - (iv) If the amount agreed upon exceeds Rs. 20,000/-, it shall be necessary to have an annual statement of proposed charges from the State Government at the time of preparation of the Budget. However, if in any individual case, the charges are obviously static, then the contract system may be adopted in these cases also.
- (e) In exceptional cases in which arbitration has to be resorted to, the Finance Ministry will make the requisite arrangement in the matter.
- (f) The Finance Ministry shall be consulted on all matters arising under Article 258 (3) of the Constitution.

Rule 109. Principles governing transactions in connection with the agency functions entrusted to State Government : The following procedure shall be followed in regard to transactions arising in connection with the agency functions entrusted to the State Governments under Article 258 of the Constitution:

(a) *The expenditure on extra staff or contingencies which the State Government have to incur.*-The extra cost to the State Government arising mainly in respect of the additional staff employed or contingent and other expenditure, as in the case of work devolving on the State Governments in connection with the administration of the Census Act, is reimbursable under Article 258 (3) of the Constitution. Expenditure in this regard shall be provided in the State Budget in the first instance and adjusted in the accounts of the State Governments under the normal Heads of Accounts. These will be reimbursed in lump to the State Governments, necessary provision being made under a distinct sub-head" Amounts paid to other Governments, Departments, etc.", under the concerned Demand of the Ministry administratively concerned with the subject. In computing the extra cost, the element of leave and pensionary charges can also be included, provided the relevant service and financial rules of the State Governments provide for this.

(b) *The expenditure on work entrusted to the State Government, such as expenditure on construction and maintenance of National Highways, expenditure*

on Defence Works, Aviation Works, etc. -The expenditure directly connected with the execution of the scheme or work entrusted to the State Government such as expenditure on the construction or maintenance of National Highways, etc., will be adjusted direct in the accounts of the Central Government under the relevant Head of Account. The question of including the estimates in this regard in the Budget of the State Governments and subjecting them to the vote of the State Legislature will not arise. The expenditure will be adjusted under the Head "Adjusting Account between Central and State Governments" in the Remittance Section of the State Accounts in the first instance pending their eventual clearance in accordance with the prescribed procedure.

Note: In the converse case relating to the entrustment of a State function to the Central Government under Article 258-A of the Constitution, a procedure similar to that indicated in the **Rule 109** above shall be followed. The extra cost on staff and other contingent expenditure, etc., will accordingly have to be provided in the Budget of the Central Government in the usual manner and recovery made in lump from the State Government concerned. The other expenditure on execution of the work proper should be debited to the State Government concerned direct and the question of obtaining a vote of the Parliament for the same will not arise.

Rule 110. Crucial date for closure of inter-Government adjustments : Inter-Governmental adjustments can be carried out upto the 15th of April on which date the books of the Reserve Bank are closed for the month of March. Every endeavour must, therefore, be made to settle as far as possible all transactions with State Governments before the close of the year.

Rule 111. Adjustments with foreign Governments, outside bodies, etc. : Unless exempted by Government by general or special orders, services shall not be rendered to any foreign Government or non-Government body or institution or to a separate fund constituted as such except on payment.

Rule 112. Recoveries of expenditure for services rendered to non-Government parties : Recoveries of expenditure for services rendered or supplies made to non-Government parties or other Governments (including local funds and Governments outside India), shall in all cases be classified as receipts of the Government rendering such services.

Rule 113. Recoveries of expenditure for services rendered as an agent : When a Government undertakes a service merely as an agent of a private body, the entire cost of the service shall be recovered from that body so that the net cost to Government is nil. The recoveries shall be taken as reduction of expenditure.

Explanation: The term 'recovery' is used in these rules to denote repayment of/or payment by non-Government parties or other Governments towards charges initially incurred and classified by a Central Government Department in the account, as final expenditure by debit to a Revenue or Capital Head of Account. Recoveries towards establishment charges, tools and plants, fees for procurement of inspection of stores or both etc., effected at percentage rates or otherwise, are some examples.

Rule 114. Payments to outside body or fund to be through grant-in-aid : Any relief in respect of payment for services rendered or supplies made to any outside body or fund shall ordinarily be given through a grant-in-aid rather than by remission of dues.

Rule 115. Charges relating to the maintenance and demarcations and disputes over boundaries : The incidence of charges relating to the maintenance and demarcations and disputes over boundaries between India and a foreign country is regulated by the following principles;-

- (a) Maintenance – Half the maintenance charges will be borne by the Central Government, the other half being recovered, as far as practicable, from the foreign country, failing which the foreign country's share will also be borne by the Central Government. However, Nepal will be subject to special arrangements, which will be worked out in consultation with the Nepal Government.
- (b) Demarcation and Disputes – Charges relating to demarcation of boundaries and boundary disputes will be borne by the Central Government under Entry 10 of the Union List, subject to such recovery as shall be made from the Foreign Country.
- (c) Where streams or other watercourses form the boundaries and where the ordinary principle of median line applies, the Government concerned (i.e., Foreign Country or India) will bear the cost of maintenance of the boundary line on its side. Where a separate set of survey marks is maintained by each of the two Governments on its side, the cost of maintenance of the survey marks shall be borne by the Government concerned.

Exception: The share of the Bhutan Government for maintenance and demarcation of and disputes over boundaries will be borne by the Central Government for the present.

INTER-DEPARTMENTAL ADJUSTMENTS

Rule 116. Inter-Departmental Adjustments : Save as expressly provided by any general or special orders, a Service Department shall not charge other departments for services rendered or supplies made which falls within the class of duties for which the former department is constituted. However, a commercial department or undertaking shall ordinarily charge and be charged for any supplies made and services rendered to, or by, other departments of Government.

Rule 117. Principles for division of Departments for purposes of inter-departmental payments : For purposes of inter-departmental payments, the departments of a Government shall be divided into service departments and commercial departments according to the following principles:-

(a) *Service Departments.* -These are constituted for the discharge of those functions which either-

- (i) Are inseparable from and form part of the idea of Government e.g. Departments of Administration of Justice, Jails, Police, Education, Medical, Public Health, Forest, Defence; or
- (ii) Are necessary to and form part of, the general conduct of the business of Government e.g. Departments of Survey, Government Printing, Stationery, Public Works (Building and Roads Branch), Central Purchase Organisation (Director-General of Supplies and Disposals, New Delhi).

(b) *Commercial Departments or Undertakings.*-These are established mainly for the purposes of rendering services or providing supplies, of certain special kinds, on payment for the services rendered or for the articles supplied. They perform functions, which are not necessarily governmental functions. They are required to work to a financial result determined through accounts maintained on commercial principles.

Rule 118. Period for preferment of claims : All claims shall ordinarily be preferred between Departments, both commercial and non-commercial of the Central Government, within the same financial year and not beyond three years from the date of transaction. This limitation, however, may be waived in specific cases by mutual agreement between the departments concerned.

Rule 119. Procedure for settlement of inter-departmental adjustments : The settlement of inter-departmental adjustments shall be regulated by the directions contained in Chapter 4 of Government Accounting Rules, 1990.

Rule 120. Inter-departmental and other adjustments to be made in the account year : Under the directions contained in the Account Code for Accountants General, inter-departmental and other adjustments are not to be made in the accounts of the past year, if they could not have been reasonably anticipated in time for funds being obtained from the proper authority. In all cases, where the adjustment could have reasonably been anticipated as, for example, recurring payments to another Government or department and payments which, though not of fixed amount, are of a fixed character, etc., the Accounts Officer will automatically make the adjustment in the accounts before they are finally closed. The onus of proving that the adjustments could not have been reasonably anticipated should lie with the Controlling Officer.

As between different Departments of the same Government, the recoveries effected for services rendered shall be classified as deductions from the gross expenditure. However, recoveries made by a Commercial Department, e.g., Railways, Posts or a departmental commercial undertaking in respect of services rendered in pursuance of the functions for which the Commercial Department is constituted shall be treated as receipts of the Department but where it acts as an

agent for the discharge of functions not germane to the essential purpose of the Department, the recoveries shall be taken as reduction of expenditure.

Exception.-Recoveries of fees for purchase, inspection, etc., effected by the Central Purchase Organizations of Government of India, are treated as receipts of the Department concerned.

NOTE I.-The term 'recovery' is used in this rule to denote repayment of / or payment by one Department of the same Government towards charges initially incurred and classified by another Department in its accounts as final expenditure by debit to a Revenue or Capital Head of Account. Recoveries towards establishment charges, tools and plants, fees for procurement or inspection of stores or both, etc., effected at percentage rates or otherwise, are some examples.

NOTE 2.-Recoveries effected from another Department of the same Government which are to be classified as deduction from the gross expenditure, shall be shown in the relevant Demand for Grant as "below the line" recovery under the appropriate major, etc., Head of Account. Recovery actually effected, irrespective of the year to which it relates shall be adjusted in accounts in the schedule of recovery to be attached to the Appropriation Account of the year in which the recovery is effected.

Rule 121. Adjustment of Pensionary Charges of certain Commercial Departments : Except as otherwise provided, the pensionary liability of commercial departments and undertakings, for which pro forma commercial accounts are maintained, shall be assessed on a contribution basis at such rates as may be fixed by Government from time to time. In the case of departments and undertakings, for which no regular commercial accounts are maintained either within or outside the regular Government accounts but which are allowed to charge for their products or services rendered, the pensionary liability shall be taken into account in the estimate of overhead charges and manufacturing costs for the purpose of calculating the issue price of goods manufactured or fees for services rendered. The calculation shall be made at rates prescribed for the purpose by Government.

NOTE: The Railways, Posts and Defence Departments are regarded as separate Governments for the purpose of adjustment of pensionary charges.

Rule 122. Pensionary liability in the case of Government Departments/Undertakings declared as commercial : In the case of Government Departments and Undertakings declared as commercial, adjustment of Pensionary liability shall be made in the regular accounts by charging the average of the percentage for 15th year of service stipulated in Appendix-II-A to the P & T Compilation of Fundamental and Supplementary Rules, Volume-II, duly rounded to the nearest whole number. The average of the rates for Groups 'A' to 'D' employees prescribed in O.M. No. F. 8 (9)-E. 111/81, dated the 29th July, 1982, issued by the Ministry of Finance (Department of Expenditure), works out to 12 %.

Detailed instructions relating to procurement of goods may be issued by the procuring departments broadly in conformity with the general rules contained in this Chapter.

Rule 136. Definition of Goods : The term 'goods' used in this chapter applies generally to all articles, material, commodities, livestock, furniture, fixtures, raw material, spares, instruments, machinery, equipment, industrial plant etc. purchased or otherwise acquired for the use of Government but excluding books, publications, periodicals, etc. for a library.

Rule 137. Fundamental principles of public buying : Every authority delegated the financial powers to procure goods in public interest has total and indivisible responsibility and accountability for bringing efficiency, economy, transparency, fair and equitable treatment of suppliers and promotion of competition in public procurement.

The procedure to be followed in making public procurement must conform to the following yardsticks :-

- (i) The specifications in terms of quality, type etc., as also quantity of goods to be procured, should be clearly spelt out keeping in view the specific needs of the procuring organisations. The specifications so worked out should meet the basic needs of the organisation without including superfluous and non-essential features, which may result in unwarranted expenditure. Care should also be taken to avoid purchasing quantities in excess of requirement to avoid inventory carrying costs.
- (ii) Offers should be invited following a fair, transparent and reasonable procedure.
- (iii) The procuring authority should be satisfied that the selected offer adequately meets the requirement in all respects.
- (iv) The procuring authority should satisfy itself that the price of the selected offer is reasonable and consistent with the quality required.
- (v) At each stage of procurement the concerned procuring authority must place on record, in precise terms, the considerations which weighed with it while taking the procurement decision.

Rule 138. Authorities competent to purchase stores : An authority which is competent to incur contingent expenditure may sanction the purchase of goods required for use in public service in accordance with Schedule V of the Delegation

In case however, a Ministry / Department does not have the required expertise, it may project its indent to the Central Purchase Organisation (e.g. DGS&D) with the approval of its Secretary. The indent form to be utilised for this purpose will be as per the standard form evolved by the Central Purchase Organisation.

Rule 141. Rate Contract : The Central Purchase Organisation (e.g. DGS&D) will conclude rate contracts with the registered suppliers, for goods and items of standards types which are identified as common user items and are needed on recurring basis by various Central Government Ministries / Departments. The Ministries / Departments may operate those rate contracts to the maximum extent possible.

Rule 142. Registration of Suppliers :

- (i) With a view to establishing reliable sources for procurement of goods commonly required for Government use, the Central Purchase Organisation (e.g. DGS&D) will prepare and maintain item-wise lists of eligible and capable suppliers. Such approved suppliers will be known as "Registered Suppliers". All Ministries / Departments may utilise these lists as and when necessary. Such registered suppliers are prima facie eligible for consideration for procurement of goods through Limited Tender Enquiry. They are also ordinarily exempted from furnishing bid security along with their bids. A Ministry/Department may also register suppliers of goods which are specifically required by that Ministry / Department.
- (ii) Credentials, manufacturing capability, quality control systems, past performance (for the goods in question), after-sales service, financial background etc. of the supplier(s) should be carefully verified before registration.

The registered supplier(s) are liable to be removed from the list of approved suppliers if they fail to abide by the terms and conditions of the registration or fail to supply the goods on

time or supply substandard goods or make any false declaration to any Government agency or for any ground which, in the opinion of the Government, is not in public interest.

Rule 143. Enlistment of Indian Agents : As per the Compulsory Enlistment Scheme of the Department of Expenditure, Ministry of Finance, it is compulsory for Indian agents, who desire to quote directly on behalf of their foreign principals, to get themselves enlisted with the Central Purchase Organisation (eg. Rule 149. Purchase of goods by obtaining bids / tenders : Ministries / Departments shall procure goods under the powers referred to in **Rule 140** above by following the standard method of obtaining bids / tender as follows, except in cases covered under **Rule 145, 146 and 147(1)**.

If such a downloaded bidding document is priced, there should be clear instructions for the bidder to pay the amount by demand draft etc. along with the bid.
- (iv) Where the Ministry / Department feels that the goods of the required quality, specifications etc., may not be available in the country and it is necessary to also look for suitable competitive offers from abroad, the Ministry / Department may send copies of the tender notice to the Indian embassies abroad as well as to the foreign embassies in India. The selection of the embassies will depend on the possibility of availability of the required goods in such countries.
- (v) Ordinarily, the minimum time to be allowed for submission of bids should be three weeks from the date of publication of the tender notice or availability of the bidding document for sale, whichever is later. Where the department also contemplates obtaining bids from abroad, the

- (ii) Purchase through Limited Tender Enquiry may be adopted even where the estimated value of the procurement is more than Rs. 25 Lakh, in the following circumstances.

All essential information, which a bidder needs for sending responsive bid, should be clearly spelt out in the bidding document in simple language. The bidding document should contain, inter alia

In order to attract sufficient number of bidders, the specification should be broad based to the extent feasible. Efforts should also be made to use standard specifications which are widely known to the industry.
 - (viii) Pre-bid conference : In case of turn-key contract(s) or contract(s) of special nature for procurement of sophisticated and costly equipment, a suitable provision is to be kept in the bidding documents for a pre-bid conference for clarifying issues and clearing doubts, if any, about the specifications and other allied technical details of the plant, equipment and machinery projected in the bidding document. The date, time and place of pre-bid conference should be indicated in the bidding document. This date should be sufficiently ahead of bid opening date.
 - (ix) Criteria for determining responsiveness of bids, criteria as well as factors to be taken into account for evaluating the bids on a common platform and the criteria for awarding the contract to the responsive lowest bidder should be clearly indicated in the bidding documents.

Determination of a bid's responsiveness should be based on the contents of the bid itself without recourse to extrinsic evidence.
 - (xi) Bidders should not be permitted to alter and modify their bids after expiry of the deadline for receipt of bids.

However, where the lowest acceptable bidder against ad hoc requirement is not in a position to supply the full quantity required, the remaining quantity may be ordered from the next higher responsive bidder at the rates offered by the lowest responsive bidder.
- (xv) The name of the successful bidder awarded the contract should be mentioned in the Ministries / Departments notice board / bulletin / web site

Rule 161. Efficiency, Economy and Accountability in Public Procurement System : Public procurement procedure is also to ensure efficiency, economy and accountability in the system. To achieve the same, following keys areas are to be addressed ..

The Central Purchase Organisation (e.g. DGS&D) should also ensure that the rate contracts remain available without any break.

Rule 162. Buy-Back Offer : When it is decided with the approval of the competent authority to replace an existing old item(s) with a new and better version, the department may trade the existing old item while purchasing the new one. For this purpose, a suitable clause is to be incorporated in the bidding document so that the prospective and interested bidders formulate their bids accordingly. Depending on the value and condition of the old item to be traded, the time as well as the mode of handing over the old item to the successful bidder should be decided and relevant details in this regard suitably incorporated in the bidding document. Further, suitable provision should also be kept in the bidding document to enable the purchaser either to trade or not to trade the item while purchasing the new one.

- (ii) The basic principles to be followed here are similar to those applicable for disposal through advertised tender so as to ensure transparency, competition, fairness and elimination of discretion. The auction plan including details of the goods to be auctioned and their location, applicable terms and conditions of the sale etc. should be given wide publicity in the same manner as is done in case of advertised tender.

- (iii) While starting the auction process, the condition and location of the goods to be auctioned, applicable terms and conditions of sale etc., (as already indicated earlier while giving wide publicity for the same), should be announced again for the benefit of the assembled bidders.
- (iv) During the auction process, acceptance or rejection of a bid should be announced immediately on the stroke of the hammer. If a bid is accepted, earnest money (not less than 25% of the bid value) should immediately be taken on the spot from the successful bidder either in cash or in the form of Deposit-at-Call-Receipt (DACR), drawn in favour of the Ministry / Department selling the goods. The goods should be handed over to the successful bidder only after receiving the balance payment.
- (v) The composition of the auction team will be decided by the competent authority. The team should however include an officer of the Internal Finance Wing of the department.

Rule 200. Disposal at scrap value or by other modes : If a Ministry / Department is unable to sell any surplus / obsolete / unserviceable item in spite of its attempts through advertised tender or auction, it may dispose off the same at its scrap value with the approval of the competent authority in association with Finance division. In case the Ministry / Department is unable to sell the item even at its scrap value, it may adopt any other mode of disposal including destruction of the item in an eco-friendly manner.

Rule 201. A sale account should be prepared for goods disposed off in Form GFR 18 duly signed by the officer who supervised the sale / auction.

Rule 202. (1) Powers to write off : All profits and losses due to revaluation, stock-taking or other causes shall be duly recorded and adjusted where necessary. CHAPTER - 8 CONTRACT MANAGEMENT

Rule 203. (1) All contracts shall be made by an authority empowered to do so by or under the orders of the President in terms of Article 299 (1) of the Constitution of India.

Rule 203. (2) All the contracts and assurances of property made in the exercise of the executive power of the Union shall be executed on behalf of the President. The words “for and on behalf of the President of India” should follow the designation appended below the signature of the officer authorized in this behalf.

Note 1: The various classes of contracts and assurances of property, which may be executed by different authorities, are specified in the Notifications issued by the Ministry of Law from time to time.

Note 2 : The powers of various authorities, the conditions under which such powers should be exercised and the general procedure prescribed with regard to various classes of contracts and assurances of property are laid down in Rule 21 of the Delegation of Financial Powers Rules, 1978.

Rule 204. General principles for contract : The following general principles should be observed while entering into contracts:

- (i) The terms of contract must be precise, definite and without any ambiguities. The terms should not involve an uncertain or indefinite liability, except in the case of a cost plus contract or where there is a price variation clause in the contract.
- (ii) Standard forms of contracts should be adopted wherever possible, with such modifications as are considered necessary in respect of individual contracts. The modifications should be carried out only after obtaining financial and legal advice.
- (iii) In cases where standard forms of contracts are not used, legal and financial advice should be taken in drafting the clauses in the contract.
- (iv) (a) A Ministry / Department may, at its discretion, make purchases of value upto Rs. 1 lakh by issuing purchase orders containing basic terms and conditions.

(b) In respect of Works Contracts, or Contracts for purchases valued between Rs. 1 lakh to Rs. 10 lakh, where tender documents include the General Conditions of Contract (GCC), Special Conditions of Contract (SCC) and scope of work, the letter of acceptance will result in a binding contract.

(c) In respect of contracts for works with estimated value of Rs. 10 lakh or above or for purchase above Rs. 10 lakh, a Contract document should be executed, with all necessary clauses to make it a self-contained contract. If however, these are preceded by Invitation to Tender, accompanied by GCC and SCC, with full details of scope and specifications, a simple one page contract can be entered into by attaching copies of the GCC and SCC, and details of scope and specifications, Offer of the Tenderer and Letter of Acceptance.

(d) Contract document should be invariably executed in cases of turnkey works or agreements for maintenance of equipment, provision of services etc.

- (v) No work of any kind should be commenced without proper execution of an agreement as given in the foregoing provisions.
- (vi) Contract document, where necessary, should be executed within 21 days of the issue of letter of acceptance. Non-fulfilment of this condition of executing a contract by the Contractor / Supplier would constitute sufficient ground for annulment of the award and forfeiture of Earnest Money Deposit.
- (vii) Cost plus contracts should ordinarily be avoided. Where such contracts become unavoidable, full justification should be recorded before entering into the contract. Where supplies or special work covered by such cost plus contracts have to continue over a long duration, efforts should be made to convert future contracts on a firm price basis after allowing a reasonable period to the suppliers/contractors to stabilize their production /execution methods and processes.

Explanation : A cost plus contract means a contract in which the price payable for supplies or services under the contract is determined on the basis of actual cost of production of the supplier or services concerned plus profit either at a fixed rate per unit or at a fixed percentage on the actual cost of production.

- (viii) (a) Price Variation Clause should be provided only in long-term contracts, where the delivery period extends beyond 18 months. In short-term contracts firm and fixed prices should be provided for. Where a price variation clause is provided, the price agreed upon should specify the base level viz, the month and year to which the price is linked, to enable variations being calculated with reference to the price levels prevailing in that month and year.

(b) A formula for calculation of the price variations that have taken place between the Base level and the Scheduled Delivery Date should be included in this clause. The variations are calculated

by using indices published by Governments / Chambers of Commerce periodically. An illustrative formula has been appended to these rules at Appendix -15 for guidance.

(c) The Price variation clause should also specify cut off dates for material and labour, as these inputs taper off well before the scheduled Delivery Dates.

(d) The price variation clause should provide for a ceiling on price variations, particularly where escalations are involved. It could be a percentage per annum or an overall ceiling or both. The buyer should ensure a provision in the contract for benefit of any reduction in the price in terms of the price variation clause being passed on to him.

(e) The clause should also stipulate a minimum percentage of variation of the contract price above which price variations will be admissible (e.g. where resultant increase is lower than two per cent, no price adjustment will be made in favour of the supplier).

(f) Where advance / stage payments are made there should be a further stipulation that no price variations will be admissible on such portions of the price, after the dates of such payment.

(g) Where deliveries are accepted beyond the scheduled Delivery Date subject to levy of liquidated damages as provided in the Contract, the liquidated damages (if a percentage of the price) will be applicable on the price as varied by the operation of the Price variation clause.

(h) No price variation will be admissible beyond the original Scheduled Delivery Date for defaults on the part of the supplier.

(i) Price variation may be allowed beyond the original Scheduled Delivery Date, by specific alteration of that date through an amendment to the contract in cases of Force Majeure or defaults by Government.

(j) Where contracts are for supply of equipment, goods etc, imported (subject to customs duty and foreign exchange fluctuations) and / or locally manufactured (subject to excise duty and other duties and taxes), the percentage and element of duties and taxes included in the price should be specifically stated, along with the selling rate of foreign exchange element taken into account in the calculation of the price of the imported item.

The mode of calculation of variations in duties and taxes and Foreign exchange rates and the documents to be produced in

support of claims for such variations, should also be stipulated in the Contract.

- (k) The clause should also contain the mode and terms of payment of the price variation admissible.
- (ix) Contracts should include provision for payment of all applicable taxes by the contractor / supplier.
- (x) "Lumpsum" contracts should not be entered into except in cases of absolute necessity. Where lumpsum contracts become unavoidable, full justification should be recorded. The contracting authority should ensure that conditions in the lumpsum contract adequately safeguard and protect the interests of Government.
- (xi) Departmental issue of materials should be avoided as far as possible. Where it is decided to supply materials departmentally, a schedule of quantities with the issue rates of such material as are used in the contract work, should form an essential part of the contract.
- (xii) (a) In contracts where government property is entrusted to a contractor, either for use on payment of hire charges or for doing further work on such property, specific provision for safeguarding government property (including insurance cover) and for recovery of hire charges regularly, should be included in the contracts.

(b) Provision should be made in the contract for periodical physical verification of the number and the physical condition of the items at the contractors premises. Results of such verification should be recorded and appropriate penal action taken where necessary.
- (xiii) Copies of all contracts and agreements for purchases of the value of Rs. 25 Lakh and above, and of all rate and running contracts entered into by civil departments of the Government other than the departments like the Directorate general of Supplies and Disposals for which a special audit procedure exists, should be sent to the Audit Officer and /or the Accounts officer as the case may be.
- (xiv) (a) The terms of a contract, including the scope and specification once entered into, should not be materially varied.

(b) Wherever material variation in any of the terms or conditions in a contract becomes unavoidable, the financial effect involved should be examined and recorded and specific approval of the authority competent to approve the revised financial commitment obtained, before varying the conditions.

- (c) All such changes should be in the form of an amendment to the contract duly signed by all parties to the contract.
- (xv) Normally no extensions of the scheduled delivery or completion dates should be granted except where events constituting force majeure, as provided in the contract, have occurred or the terms and conditions include such a provision for other reasons. Extensions as provided in the Contract may be allowed through formal amendments to the contract duly signed by parties to the contract.
- (xvi) All contracts shall contain a provision for recovery of liquidated damages for defaults on the part of the contractor.
- (xvii) A warranty clause should be incorporated in every contract, requiring the supplier to, without charge, repair or rectify defective goods or to replace such goods with similar goods free from defect. Any goods repaired or replaced by the supplier shall be delivered at the buyers premises without costs to the buyer.
- (xviii) All contracts for supply of goods should reserve the right of Government to reject goods which do not conform to the specifications.

Rule 205. Management of Contracts : (1) Implementation of the contract should be strictly monitored and notices issued promptly whenever a breach of provisions occur.

Rule 205. (2) Proper procedure for safe custody and monitoring of Bank Guarantees / other Instruments should be laid down. Monitoring should include a monthly review of all Bank Guarantees / other instruments expiring after three months, along with a review of the progress of supply/work. Extensions of Bank Guarantees / other instruments, where warranted, should be sought immediately.

Rule 205. (3) Wherever disputes arise during implementation of a contract, legal advice should be sought before initiating action to refer the dispute to conciliation and/or arbitration as provided in the contract or to file a suit where the contract does not include an arbitration clause. The draft of the plaint for arbitration should be got vetted by obtaining legal and financial advice. Documents to be filed should be carefully scrutinized before filing to safeguard government interest.

CHAPTER - 9 GRANTS-IN-AID AND LOANS

I. GRANTS-IN-AID

Rule 206. As a general principle grants-in-aid can be given to a person or a public body or an institution having a distinct legal entity. Thus grants-in-aid including scholarships may be sanctioned by an authority competent to do so under the Delegation of Financial Powers Rules, 1978 to :

- (a) Institutions or organizations set up as Autonomous Organisation under a specific statute or as a society registered under the Societies Registration Act, 1860 or Indian Trusts Act 1882 or various State Trusts Acts etc.

Rule 208. General Principles for setting up of Autonomous Organisations referred to under **Rule 206 (a)** :

- (i) No new autonomous institutions should be created by Ministries / Departments without the approval of the Cabinet.
- (ii) Stringent criteria should be followed for setting up of new autonomous organisations and the type of activities to be undertaken by them. The Ministry / Department should examine in detail (a) whether the activities proposed to be taken up are necessary at all (b) whether these activities, if necessary, need to be undertaken by setting up an autonomous organisation only or whether these could be performed by the concerned government agency or any other organisation already existing.
- (iii) All autonomous organisations, new or already in existence should be encouraged to maximise generation of internal resources and eventually attain self sufficiency.
- (iv) Instead of giving recurring grants, wherever possible, the Ministry / Department may consider creating a Corpus Fund, the returns on investment of which, alongwith their internally generated resources should enable the autonomous organisation to meet its revenue expenditure.

- (v) A system of external / peer review of autonomous organisations every 3 or 5 years depending on the size and nature of activity should be put in place. Such a review should focus, inter alia, on
 - (a) the objective for which the autonomous organisation was set up and whether these objectives have been or are being achieved;
 - (b) whether the activities should be continued at all, either because they are no longer relevant or have been completed or if there has been a substantial failure in achievement of objectives. A zero based budget approach should be followed in making this assessment.
 - (c) whether the nature of the activities is such that these need to be performed only by an autonomous organisation.
 - (d) whether similar functions are also being undertaken by other organisations, be it in the central government or state governments or the private sector, and if so, whether there is scope for merging or winding up the organisations under review.
 - (e) whether the total staff complement, particularly at the support level, is kept at a minimum, whether the enormous strides in information technology and communication facilities as also facilities for outsourcing of work on a contract basis, have been taken into account in determining staff strength; and whether scientific / technical personnel are being deployed on functions which could well be carried out by non scientific / non technical personnel etc.
 - (f) whether user charges, wherever the output or services are utilised by others, are levied at appropriate rates
 - (g) the scope for maximizing internal resources generation in the organisation so that the dependence upon government budgetary support is minimised.
- (vi) An organisation whose performance is found to be outstanding and internationally acclaimed as a result of the review envisaged under (v) above should be granted greater autonomy and increased flexibility in matters of recruitment and financial rules, enabling it to devise and adopt staff structures, procedures and rules suited to improving their productivity.
- (vii) Autonomous organisations as defined in (vi) above as also others with a budgetary support of more than Rs. 5 crore per annum, should be required to enter into a Memorandum of Understanding with the Administrative Ministry / Department, spelling out clearly the output targets in terms of details of programme of work and qualitative improvement in output, alongwith commensurate input requirements. The output targets, given in measurable units of performance, should form the basis of budgetary support extended to these organisations.

Rule 209. Principles and Procedure for award of Grants-in-aid : (1) Any Institution / Organisation seeking grants-in-aid from Government will be required to

submit an application which includes all relevant information such as Articles of Association, By-laws, audited statement of accounts, sources and pattern of income and expenditure, etc. enabling the sanctioning authority to assess the suitability of the Institution / Organisation seeking grant. The application should clearly spell out the need for seeking grant and should be submitted in such form as may be prescribed by the sanctioning authority. The Institution / Organisation seeking grants-in-aid should also certify that it has not obtained / applied for grants for the same purpose / activity from any other Ministry / Department of the Government of India or State Government.

NOTE : In order to obviate duplication in grants-in-aid each Ministry / Department should maintain a list of Institutions / Organisations along with details of amount and purpose of grants given to them on its web site.

Rule 209. (2) The Internal Finance Wing of the Ministry / Department concerned should lay down the rules / pattern of assistance under the broad guidelines contained in this Chapter and instructions issued by the Ministry of Finance from time to time. All sanctions of grants-in-aid issued by a Ministry / Department of the Central Government or an Administrator in exercise of their powers under Rule 20 of the Delegation of Financial Powers Rule, 1978, as amended from time to time, should conform to the pattern of assistance or rules governing such grants-in-aid.

Rule 209. (3) Award of grants should be considered only on the basis of viable and specific schemes drawn up in sufficient detail by the Institution / Organisation. The budget for such schemes should disclose, inter alia, the physical milestones likely to be attained against the outlay.

Rule 209. (4) Subject to the following terms and conditions, grants-in-aid towards administrative expenditure may be sanctioned to voluntary organizations to ensure a certain minimum staff structure and qualified personnel to improve their effectiveness and expand their activities under the following conditions :-

- (a) The grants-in-aid should not exceed 25% of approved administrative expenditure on pay and allowances of the personnel of the voluntary organisation concerned.
- (b) Grants-in-aid to meet administrative expenditure to any private institutions other than the voluntary organizations should not ordinarily be sanctioned. In exceptional cases such grants can be considered for sanction in consultation with Internal Finance Wing.

Rule 209. (5) Every order sanctioning a grant shall indicate whether it is recurring or non-recurring and specify clearly the object for which it is being given and the general and special conditions, if any, attached to the grant. In the case of non-recurring grants for specified object, the order shall also specify the time limit within which the grant or each instalment of it, is to be spent

Rule 209. (6) (i) The sanctioning authority may prescribe conditions regarding quantum and periodicity for release of Grants-in-aid in instalments in consultation with the Financial Adviser. However, the release of the last instalment of the

annual grant must be conditional upon the grantee institutions providing reasonable evidence of proper utilization of instalments released earlier.

- (ii) In order to avoid delay in sanction / release of grants in aid to the grantee Institutions, the Ministry / Department should impress upon Institution / Organisation desiring grants from Government, to submit their requirement with supporting details by the end of October in the year preceding the year for which the grants-in-aid is sought. The Ministry / Department on its part, should finalize their examination of the requests with the utmost expedition and make the necessary budget provision where it is decided to sanction grants. The Institution / Organisation should be informed of the result of their requests by April in the succeeding year.
- (iii) When recurring grants-in-aid are sanctioned to the same Institution / Organisation for the same purpose, the unspent balance of the previous grant should be taken into account in sanctioning the subsequent grant.
- (iv) (a) All grantee Institutions / Organisations which receive more than 50% of their recurring expenditure in the form of grants-in-aid, should ordinarily formulate terms and conditions of service of their employees which are, by and large, not higher than those applicable to similar categories of employees in Central Government. However in exceptional cases relaxation may be made in consultation with the Ministry of Finance.

(b) Grantee Institutions / Organisations should be encouraged to take advantage of the pension / gratuity schemes / group insurance schemes / house, buildings loans / vehicle loans schemes etc., available in the market for employees instead of undertaking liability on their own or Government account.
- (v) In making grants to non-government or quasi-government Institutions or Organisations, a condition should be laid down that assets acquired wholly or substantially out of Government grants, except those declared as obsolete and unserviceable or condemned in accordance with the procedure laid down in the General Financial Rules, shall not be disposed of without obtaining the prior approval of the authority which sanctioned the grants-in-aid.
- (vi) The sanctioning authority, while laying down the pattern of assistance, may decide whether the ownership of buildings constructed with grants-in-aid may vest with Government or the grantee Institution / Organisation. Where the ownership is vested in the Government, the grantee Institution / Organisation may be allowed to occupy the building as a lessee. In such cases suitable record of details of location, cost, name of lessee and terms and conditions of lease must be maintained in the granting Ministry's / Department's records. In all cases of buildings constructed with grants-in-aid, responsibility of maintenance of such buildings should be laid on the grantee Institution / Organisation.

 - (b) not divert the grants or entrust execution of the scheme or work concerned to another Institution(s) or Organization(s).

The stamp duty for this bond shall be borne by the Government.

- (x) Execution of bond will not apply to quasi-Government Institutions, Central Autonomous Organisations and Institutions whose budget is approved by Government.
- (xi) The stipulation in regard to refund of the amount of grant-in-aid with interest thereon should be brought out clearly in the letter sanctioning the grant as well as in the bond required to be executed by the grantee.
- (xii) (a) As a precondition to the sanction of grants-in-aid to the agencies where–
 - (aa) the recipient body employs more than 20 persons on a regular basis and at least 50% of its recurring expenditure is met from grants-in-aid from Central Government; and
 - (bb) the body is a registered society or a co-operative institution and is in receipt of a general purpose annual grants-in-aid of Rs. 20 lakh and above from the Consolidated Fund of India,

the grant sanctioning authority should ensure that a suitable clause is invariably included in the terms and conditions under which the grants-in-aid are given, to provide for reservation for Scheduled Castes and Scheduled Tribes / OBC in posts and services under such organizations or agencies. The relative provision may be on the following lines :-

“..... (Name of Institution / Organization etc.) agrees to make reservations for Scheduled Castes and Scheduled Tribes / OBC in the posts / services under its control on the lines indicated by the Government of India”.

(b) While sanctioning grants-in-aid to Institutions / Organisations referred to at (a) above, the grant sanctioning authority should keep in view the progress made by such Institutions / Organisations in employing Scheduled Castes and Scheduled Tribes / OBC candidates in their services.

- (xiii) Central Autonomous Organisations which receive Plan grants as well as Non-Plan grants, should account for expenditure (Capital and Revenue) separately under Plan and Non-plan. The Government of India, Ministry of Finance has formulated standard formats for presentation of final accounts, for all Central Autonomous Organisations. All grant sanctioning authorities

- should enforce the condition of maintaining and presenting their annual accounts in the standard formats on all Central Autonomous Organisations.
- (xiv) The grant sanctioning authorities should not only take into account the internally generated resources while regulating the award of grants but should consider laying down targets for internal resource generation by the grantee Institutions / Organisations every financial year, particularly where grants are given on a recurring basis year after year.

Rule 210. Accounts of Grantee Institutions : Institutions or Organisations receiving grants should, irrespective of the amount involved, be required to maintain subsidiary accounts of the Government grant and furnish to the Accounts Officer a set of audited statement of accounts. Rule 211. Audit of Accounts of Grants-in-aid : (1) The accounts of all grantee Institutions / Organisations shall be open to inspection by the sanctioning authority /audit both by the Comptroller and Auditor General of India under the provision of CAG(DPC) Act 1971 and internal audit by the Principal Accounts Office of the Ministry / Department, whenever the Institution / Organisation is called upon to do so and a provision to this effect should invariably be incorporated in all orders sanctioning grants-in-aid.

Rule 211. (2) (a) The accounts of the grantee Institution / Organisation shall be audited by the Comptroller and Auditor General of India under Section 14 of the Comptroller and Auditor General of India (Duties, Powers and Conditions of Service) Act, 1971, if the grants or loans to the institution in a financial year are not less than Rs. 25 lakh and also not less than 75% of the total expenditure of the Institution. Where such certificate is not received from the grantee within the prescribed time, the Ministry / Department will be authorised to blacklist such Institution / Organisation from any future grant, subsidy or other type of financial support from the Government. This fact should also be put on the website referred to in the Note under **Rule 209 (1)** above.

In respect of recurring grants, Ministry / Department concerned should examine the annual audited Statement of Accounts of the grantee Institution / Organisation and utilization certificate to satisfy itself about the proper utilization of grants released for the preceding year before admitting their claim for grants-in-aid in the subsequent financial year. In such cases the sanction letters should specify clearly that the utilization certificates will not be necessary.

NOTE 2. In respect of Central Autonomous Organisations, the Utilization Certificate shall disclose separately the actual expenditure incurred and the Loans and Advances given to suppliers of stores and assets, to construction agencies, to staff (for house building and purchase of conveyance, etc.), which do not constitute expenditure at that stage. These shall be treated as unutilized grants but allowed to be carried forward. While regulating the grants for the subsequent year, the amounts carried forward shall be taken into account.

- (iv) The annual reports and audited statements of accounts of Autonomous Organisations are required to be laid on the table of the Parliament. In such cases, the Ministry's / Departments of Central Government need not incorporate performance-cum-achievement reports in the annual reports. In cases where the grants-in-aid are for Rs. 25 lakh or less, the Ministry / Departments of the Central Government should include in their annual report their own assessment of the achievements or performance of the Institution / Organizations.

- (a) **Register of Grants** : A Register of Grants shall be maintained by the sanctioning authority in the format given in Form GFR - 39.
- (b) Columns (i) to (v) of the register in format at Form GFR - 39 should be filled in simultaneously with the issue of the order sanctioning each grant. These columns should be attested by any Gazetted Officer nominated for the purpose by the sanctioning authority. The serial number should be recorded on the body of the sanction at the time the item is entered in the Register as under :
“Noted at serial No in the Register of Grants”.
- (c) Such a record will guard against the possibility of double payment. Columns (vi) and (vii) should be filled in and attested by the Gazetted Officer concerned as soon as the bill is ready. The bill should then be submitted to the Gazetted Officer nominated to act as Drawing and Disbursing Officer with the register for signing the bill and to the sanctioning authority for giving dated initials in column (viii) of Register. It should also be the duty of the sanctioning authority to verify that the conditions, if any, attached to the grant have been duly accepted by the grantee without any reservation and that no other bill for the same purpose has already been paid before. No bill should be signed unless it has been noted in the Register of Grants against the relevant sanction. This will also facilitate watching of payments in instalments, if any, in the case of lump sum sanctions.
Information at column (xiii) above should be used also for regulating the subsequent grants.

Rule 212. (5) State Government to submit utilization certificate when expenditure incurred through local bodies : When Central grants are given to State Governments for expenditure to be incurred by them through local bodies or private institutions, the utilization certificates should be furnished by the State Government concerned.

Rule 213. Discretionary Grants : When an allotment for discretionary grants is placed at the disposal of a particular authority, the expenditure from such grants shall be regulated by general or special orders of the competent authority specifying the object for which the grants can be made and any other condition(s) that shall apply to them. Such discretionary grants must be non-recurring and not involve any future commitment.

Rule 214. Other Grants : Grants, subventions, etc., including grants to States other than those dealt with in the foregoing rules, may be made under special orders of Government.

Rule 215. (1) Regulation of recurring grants-in-aid for Government employees' welfare :-

1. Grants-in-aid for provision of amenities or of recreational or welfare facilities to the staff of the offices of the Government are regulated under orders of the Ministry of Home Affairs issued from time to time. The admissibility of the grants-in-aid for the welfare of the employees of the Government should be regulated in the following manner :-

- (i) The grant in aid will be admissible on the basis of the total strength borne on the regular strength of an organization, i.e., Ministry / Department, etc., and its Attached and Subordinate Offices and such statutory bodies whose budget forms part of Consolidated Fund of India, irrespective of the fact whether any individual is a member of the staff club, etc., or not. However, grant-in-aid in respect of Gazetted Officers will be admissible only to that Ministry / Department / Office where membership of recreation club is open to such officers.

Staff paid from contingencies, work-charged staff etc., will not be taken into calculation for this purpose. Staff eligible for similar concession under some other rule/statutory provision, e.g., industrial workers will also not be covered by these orders.

- (ii) *Amounts of grants-in-aid.* –(a) The rate of the grant-in-aid will be Rs. 50 per head per annum. In addition to this, an additional grant-in-aid up to Rs. 25 per head per annum to match the subscriptions collected during the previous financial year by the existing staff clubs will be admissible. In the case of staff clubs which are started during the financial year in which grant-in-aid is to be given, an additional matching grants-in-aid up to Rs. 25 per head per annum, to match the subscription collected by such clubs up to the date on which the proposal for the grant is mooted, may be sanctioned. The total strength of the eligible staff will be that existing on the 31st March of the previous financial year or that on the date on which proposal for grant is mooted in the case of new staff clubs.

- (iii) An illustrative list of items on which expenditure can be incurred out of grants-in-aid sanctioned by Government for provision of amenities is given below –

- (i) Articles of sports – Outdoor and indoor games equipment.
- (ii) Cost of uniforms, etc., supplied to teams of players.
- (iii) Magazines and periodicals.
- (iv) Entry fee for tournaments
- (v) Hiring of playgrounds
- (vi) Hiring and repair for furniture, etc.,
- (vii) Purchase of furniture.
- (viii) Conveyance expenses incurred locally.
- (ix) Entertainments.
- (x) Prizes.
- (xi) Film shows.
- (xii) Hiring of accommodation for Club/Association, etc.
- (xiii) Cultural, Sports and Physical development programme(s).
- (xiv) Inter-Ministry meets.
- (xv) Inter-Departmental meets.

2. A maximum one time grant of Rs. 50,000 may be sanctioned for setting up of a Recreation Club.

3. Grants-in-aid to the Ministry / Departments of the Central Government and their Attached and Subordinate Offices will be allocated by the concerned Ministry / Department on receipt of formal requests in the prescribed manner. For the purposes of these grants-in-aid, the Departments of the Central Government and their attached and Subordinate Offices will be treated as a single unit. It will be the responsibility of that Ministry / Department to distribute the amount further to its Attached and Subordinate Offices and to their different clubs. The accounts of these clubs for the preceding year duly audited by an Internal Auditor should be obtained immediately after the close of the financial year in any case by the 30th April by the Ministry / Department before allocating funds for the next financial year.

4. Grants-in-aid for the provision of amenities or recreational or welfare facilities to the staff of the Indian Audit and Accounts Department are regulated by separate orders.

Rule 215. (2) General Principles for award of Grants-in-aid for Centrally Sponsored Schemes : The following principles should be kept in view by Ministries / Departments of the Central Government at the time of designing Centrally Sponsored Schemes for implementation in States Governments / Union Territories and approving and releasing assistance to State Governments / Union Territories for such schemes: -

- (i) Every Centrally Sponsored Scheme should be treated as a Project with time bound targets for monitoring, midterm evaluation and detailed impact studies.
- (ii) The scheme should be designed in consultation with individual States / Union Territories and the outlays should be demand driven. States should be delegated adequate powers to change the details of the schemes to suit local conditions, subject to reporting such changes to the concerned Ministry / Department.
- (iii) Where plan schemes are in operation with similar objectives targeting the same population, the schemes should be converged and the schemes not yielding results should be weeded out.
- (iv) To ensure monitoring and effective control over such schemes, the number of schemes should be restricted, so that the gain from the expenditure on such schemes is maximized. The role of the Central Ministries / Departments should be capacity building, inter-sectoral coordination and detailed monitoring.
- (v) Apart from making provisions in the budget and releasing funds, the Ministries / Departments should establish a mechanism to ensure that the funds earlier released have been effectively utilised and that the data and facts reported by the State Governments / Union Territories relating to physical and financial performance are correct. Before releasing further funds, it should also be ensured that the State Governments / Union

- Territories have the capacity to actually spend the balance from the previous years and the releases during the current year.
- (vi) The Ministries / Departments should focus attention on the attainment of the objectives and not on expenditure only. A mechanism for avoiding release of large part of funds towards the end of the year should be devised and incorporated in the Scheme design itself.
 - (vii) An evaluation mechanism should be built into the Project, providing for concurrent reviews and applying, mid-course corrections where necessary.
 - (viii) A post-completion review of every Centrally Sponsored Scheme should be undertaken by the State Government(s) / Union Territories implementing the scheme, highlighting the time and cost overruns, if any, and suggestions for formulating and implementing future schemes. A copy of the review should be obtained by the Ministry concerned and kept in view while formulating new Centrally Sponsored Schemes.

Rule 215. (3) Funding of Sponsored Projects / Schemes :-

- 1) Ministries / Departments of Government sponsor projects / schemes to be undertaken by Universities, Indian Institutes of Technology and other similar autonomous organizations such as ICAR, CSIR, ICMR, etc., the results from which are expected to be in national interest. Normally the entire expenditure on such projects / schemes including capital expenditure, is funded by the Ministry / Department. The funds released for such projects / schemes in one or more instalments are not treated as grants-in-aid in the books of the implementing agency. Apart from the requirement of submission of technical and financial reports on completion of the project / scheme, a stipulation should be made in such cases that the ownership in the physical and intellectual assets created /acquired out of such funds shall vest in the sponsor. While the Project / Scheme is ongoing, the recipients should not treat such assets as their own assets in their Books of Accounts but should disclose their holding and using such assets in the Notes to Accounts specifically.
- 2) On completion of the Projects / Schemes and the receipt of technical and financial reports, the Ministries / Departments should decide and communicate to the implementing agencies whether the assets should be returned, sold or retained by them.
- 3) If the assets are to be sold, the proceeds therefrom should be credited to Government Account. If the assets are allowed to be retained by the Institution / Organisation, the implementing agency should include the assets at book value in their own accounts.

II. LOANS

Rule 216. The rules in this section shall be observed by all authorities competent to sanction loans of public moneys to State Governments, Local Administrations of Union Territories, local bodies, private individuals, institutions and others.

Rule 217. Powers and Procedure for sanction of loans : The powers of Departments of the Central Government and Administrators as well as other

subordinate authorities to sanction loans are contained in Rule 20 of the Delegation of Financial Powers Rules, 1978 and other general and special orders issued under that rule.

Rule 218. All sanctions of loans issued by a Department of Central Government or an Administrator in exercise of their powers under Rule 20 of the Delegation of Financial Powers Rules, 1978, should include a suitable certificate to the effect that the same is in accordance with the rules or principles prescribed with the previous consent of the Ministry of Finance and that the rate of interest on the loan and the period of repayment thereof have been fixed with the approval of that Ministry.

Rule 219. (1) All sanctions to loans shall be subject to proviso (b) to Rule 20 of the Delegation of Financial Powers Rules, 1978, and shall specify the terms and conditions relating to them including the terms and conditions of their repayment and payment of interest.

Rule 219. (2) Borrowers shall be required to adhere strictly to the terms settled for the loans made to them. Modifications of these terms in their favour can be made subsequently only for very special reasons.

Rule 220. (1) General conditions for regulating all loans : All loans, other than loans to cultivators, etc., which are governed by special rules, should be regulated by the following general conditions :-

- (i) A specific term should be fixed which should be as short as possible, within which each loan should be fully repaid with interest due. The terms may, in very special cases, extend to 30 years.
- (ii) The term is to be calculated from the date on which the loan is completely drawn or declared by competent authority to be closed.
- (iii) The repayment of loans should be effected by instalments, which should ordinarily be fixed on annual basis, due dates of payment being specially prescribed.
- (iv) Any instalment paid before its due date may be taken entirely towards the principal, provided it is accompanied by payment toward interest due up-to-date of actual payment of instalment; if not, the amount of the instalment will first be adjusted towards the interest due for preceding and current periods and the balance, if any, will alone be applied towards the principal. If, however, the payment of the instalment is in advance of the due date by 14 days or less, interest for the full period (half-year or full year, as the case may be) will be payable.
- (v) When the due date of repayment of any instalment of principal or interest falls on a Sunday or a public holiday, the payment made on the next working day following the Sunday or the public holiday, shall be regarded as payment on the due date and no interest shall be charged for the day or days by which the recovery is so postponed.

Exception. –If an instalment of principal or interest is payable on the 31st March of a year, and if that day happens to be a public holiday the recoveries should be made on the immediately preceding working day. In case, the due date for the

repayment of a loan or payment of interest falls on a holiday observed by the Reserve Bank of India or the Treasury, at which the effective credit is to take place this should be shifted to the next working day, *except* when the due date is 31st March.

- (vi) The payment of interest and the repayment of principal of a loan are always to be made with reference to the calendar date on which the loan in question is paid. However, where payment of instalment is in advance of the due date by 14 days or less, interest for the full year or half year (depending on the prescribed mode of recovery) will be charged thereon. In the case of a loan sanctioned by the Central Government to a State Government on or before 31st March of a year, which is adjusted in the books of the Reserve Bank of India in the month of April but in the accounts of the previous year the instalment of principal and/or interest will fall due for payment on the 31st March of the succeeding year and not on the anniversaries of the calendar date in April on which the inter-Governmental adjustment was carried out.
- (vii) The date of drawal of a loan by a State Government will be determined as indicated below –
 - (a) *When monetary settlement is involved* -Normally the calendar date on which amount of a loan is actually credited to the account of the State Government by the Reserve Bank / Treasury is to be treated as the date of its drawal.

This position will also hold in cases where adjustment in accounts is made in one month but date of adjustment in the books of the Reserve Bank of India falls in the following calendar month. The calendar date on which the credit is actually afforded to the State Government in the books of the Reserve Bank of India in such cases will be treated as the date of its drawal.

Exception. –An exception to this arrangement is in the case of loans for which credit is afforded to the recipient State Government in the month of April by the Reserve Bank of India but in the accounts of previous year. In such cases, a loan should be deemed to have been paid on the 31st March of the financial year in the accounts of which the payment is adjusted. Consequently, payment of annual interest as also repayment of instalment of principal in respect of such loans will fall due on the 31st March of the succeeding years and not on the anniversaries of the calendar date in April on which inter-Governmental adjustment on account of such loans was carried out in the books of the Reserve Bank of India.

- (b) *Where no monetary settlement is involved.* –In regard to cases where adjustment in the books of the Accounts Offices are only involved and actual credit through the Reserve Bank of India is not necessary, the last date on the month of account in which the adjustment is effected should be taken

as the date of drawal of loan for purposes of repayment and charging interest.

- (viii) In order to avoid any default in the payment of loan, the Principal Accounts Officers /Pay and Accounts Officers who maintain the detailed accounts of loans, should issue notices in Form GFR 36 to the loanees (other than State and Union Territory Governments), i.e., Public Sector Undertakings, statutory bodies and institutions, etc., say, a month in advance of the due date for the repayment of any instalment of the principal and/ or interest thereon. However, omission to give notice does not give the loanees any claim to exemption from the consequences of default in the repayment of the principal and/or interest thereon.

Rule 220. (2) Before sanctioning a loan to private Institutions the lending Ministry / Department should ensure adequate managerial ability and experience on the part of such private institutions.

Rule 220. (3) (i) Before considering a loan application from parties other than State Governments and Local Administrations of Union Territories, the following requirements should be fulfilled:-

- (a) it should be seen that there is adequate budget provision;
 - (b) it should be seen whether the grant of the loan would be in accordance with approved Government policy and accepted patterns of assistance.
- (ii) Before approving the loan, the applicant should be asked to furnish the following materials and information :-
- (a) copies of profit and loss (or income and expenditure) accounts and balance sheets for the last 3 years;
 - (b) the main sources of income and how the loan is proposed to be repaid within the stipulated period;
 - (c) the security proposed to be offered for the loan together with a valuation of the security offered by an independent authority and a certificate to the effect that the asset offered as security is not already encumbered.
 - (d) Details of loan or loans taken from the Central Government or a State Government in the past, indicating amount, purpose, rate of interest, stipulated period of repayment, date of original loan and amount outstanding against the loan(s) on the date of the application and the assets, if any, given as security;
 - (e) a complete list of all other loans, outstanding on the date of application and the assets given as security against them;
 - (f) the purpose for which the loan is proposed to be utilized and the economics of the scheme.

NOTE. – Where the loan is to be given to an institution on the strength of a guarantee given by the trust managing it, similar information should be called for in respect of the trust also.

- (iii) On receipt of the information called for as in (ii) above, confidential enquiries should be made from the other Departments of the Central Government/State Governments from which the party has taken loans, to judge the performance in regard to the previous loans. If the replies indicate that the performance was not satisfactory, the loan should be refused. The financial position of the party should be analysed to ensure soundness. It should also be ensured that the security offered is adequate and its value is at least 33 ¹/₃% above the amount of the loan. If possible an independent valuation of the security offered should be obtained. The applicant for the loan must satisfy both the criteria for financial soundness and adequacy of security before a loan is sanctioned.
- (iv) In the case of institutions which receive grants-in-aid from Government to meet a part of their deficits and the balance is met by the State Government and the Trustees of Management, it should be ensured –
 - (a) that in computing the deficit for purpose of the grant-in-aid, the income from the scheme, if any, earmarked for servicing the loan and the instalment of repayment of the loan and interest (if any) is not included;
 - (b) that as far as possible the scheme for which the loan is given is self-financing and does not throw an additional burden on the general income of the institutions, e.g., in the case of hostels for colleges that the rents proposed are adequate;
 - (c) the institution produces an undertaking from the State Government or the Management that any shortfall towards repayment of the loan and interest will be made good by them. In the latter case the financial position of the Management (Trust) should be investigated after calling for information on the lines of **Rule 220. (3) (i)** above.
- (v) Ministries / Departments of the Central Government should lay down a procedure for periodical review of the old loans so that prompt action can be taken, if necessary, for enforcing regular payments.

Rule 220. (4) The detailed procedure to be followed in connection with the grant of loans to local bodies will be regulated by the provisions of the Local Authorities Loans Act and other special Acts and by rules made thereunder.

Rule 221. Interest on Loans : (1) Interest shall be charged at the rate prescribed by the Government for any particular loan or for the class of loans concerned.

Rule 221. (2) A loan shall bear interest for the day of payment but not for the day of repayment. Interest for any shorter period than a complete year shall be calculated as –

$$\frac{\text{Number of days X Yearly rate of interest}}{365 \text{ (366 in case of Leap Year)}}$$

unless any other method of calculation is prescribed in any particular case of class of cases.

Rule 222. (1) Procedure to be followed for recovery of loans and interest thereon and grant of moratorium : (i) The instructions issued by the Ministry of Finance from time to time prescribing the interest rates and other terms and conditions of loans to State and Union Territory Governments, Local Bodies, Statutory Corporations, financial, industrial and commercial undertakings in the Public Sector, Private institutions/parties and individuals, should be strictly followed.

Rule 222. (2) The recovery of loans should ordinarily be effected in annual equal instalments of principal together with interest due on the outstanding amount of principal from time to time. The repayment and interest instalments may be rounded off to the nearest rupee subject to final adjustment at the time of payment of last instalment of principal and/or interest.

Rule 222. (3) A suitable period of moratorium towards repayment might be agreed to in individual cases having regard to the projects for which the loans are to be utilized. However, no moratorium should ordinarily be allowed in respect of interest payable on loans.

Rule 223. Loans to State and Union Territory Governments, Local Bodies, Statutory Corporations, Public Sector Undertakings, Private Institutions/Parties and Individuals, etc. : (1) – Loans should ordinarily be sanctioned at the normal rates of interest prescribed by Government for the particular category of the loanee. In cases where the normal rate is considered too high and a concession is justified, it should take the form of direct subsidy debitable to the grants of the sanctioning authority. In such cases interest should, however, be paid by the borrower in the first instance at the normal rates and subsidy should be claimed separately;

Provided that the provisions of this decision should not apply where the number of borrowers is very large and amount of individual loans is comparatively small (as in the case of loans to displaced persons, taccavi loans, loans for land improvement, etc.) and where the accepted policy is to lend money at rates of interest below the normal rates, or to waive the recovery of interest in whole or in part. In such cases, a token provision should be made in the budget of the Department/Office concerned for obtaining the specific approval of Parliament for the grant of the concession. No actual adjustment of accounts will, however, be necessary in such cases.

Rule 223. (2) Agreements and other documentation : (i) In the case of loans to parties other than State Governments and wholly owned Government Companies, a loan agreement specifying all the terms and conditions shall be executed. A clause shall invariably be inserted in all such agreements enabling Government at any time to call for accounts of the applicant relating to any accounting year with power to depute an officer specially authorized for this purpose to inspect the applicant's books, if necessary.

(ii) A written undertaking in Form GFR 32 should be obtained from a wholly Government-owned company at the time of sanctioning the loan. The sanction should specifically state that such an undertaking would be obtained from the loanee before the drawal of the amount of loan and a certificate that the undertaking has been obtained should be recorded by the Drawing Officer of the office of the sanctioning authority in the bill for drawal of the amount of loan. The sanction in respect of loans to other organizations, where a formal agreement is required to be executed, will also be issued in the same manner.

(iii) In the case of loans sanctioned to the Departmental/Cooperative canteens/tiffins rooms in Central Government Offices, no formal agreement need be executed, but a written undertaking in Form GFR 32 suitably modified should be obtained from the loanee.

Rule 224. Undertaking to be obtained from wholly-owned Government Companies : In the case of loans to wholly-owned Government Companies, a written undertaking to the effect that the fixed assets of the company shall not be hypothecated without prior approval of the Government should be obtained in Form GFR 32. No stamp duty need be paid on these written undertakings.

Rule 225. Loans to parties other than State Governments, wholly owned Government Companies and Local Administration of Union Territories shall be sanctioned only against adequate security. The security to be taken shall ordinarily be at least 33^{1/3} per cent more than the amount of the loan. However, a competent authority may accept security of less value for adequate reasons to be recorded.

Rule 226. Submission of utilization certificate, reports, statements, etc. : (1) In cases in which conditions are attached to the utilization of loan, either in the shape of the specification of the particular objects on or the time within which the money must be spent or otherwise, the authority competent to sanction the loan shall be primarily responsible for certifying to the Accounts Officer where necessary, the fulfillment of the conditions attaching to the loan, unless there is any special rule or order to the contrary. The loans sanctioned to the State Governments and the Local Administration of Union Territories shall not, however, come within the purview of this rule.

Rule 226. (2) (i) The certificate referred to in **Rule 226 (1)** above should be furnished as in Form GFR 19-B and at such intervals as may be agreed to between the Audit Officer and/or the Accounts Officer, as the case may be, and the Ministry / Department concerned. Before recording the certificate, the certifying officer should take steps to satisfy himself that the conditions, on which the loan was sanctioned, have been or are being fulfilled. For this purpose, he may require the submission to him at suitable intervals of such reports, statements, etc., which will establish the utilization of loan for the purpose for which it was sanctioned. The loanee institution may also be required to furnish a certificate from its Auditors that the conditions attaching to the loan have been or are being fulfilled. The certificate should give details of the breaches, if any, of those conditions.

- (ii) A certificate of utilization of the loan should be furnished to the Accounts Officer in every case of loan made for specific purposes, even if any conditions are not specifically attached to the grant. Such certificates are not, however, necessary in cases where loans are sanctioned not for any specific purpose or object but take the shape of a temporary financial aid or where the plan loans have been sanctioned to the Public Sector Undertakings intended for financing of their approved capital outlays. The repayment of loan, however, has to be watched in the usual manner.
- (iii) In respect of loans the detailed accounts of which are maintained in the Audit Offices, the authorities sanctioning the loan should furnish the utilization certificate in respect of each individual case.
- (iv) Where the detailed accounts of the loans are maintained by the departmental authorities, a consolidated utilization certificate should be furnished to Audit by the Ministries / Departments sanctioning the loans to Institutions / Organisations for the total amount of the loans disbursed during each year for different purposes including the loans sanctioned by their subordinate officers. This certificate will not cover the loans to individuals for which utilization certificates need not be furnished to the Accounts Officer. The certificate should indicate the year wise and object wise break-up of loans disbursed and the loans for which utilizations certificates are furnished. The utilization certificate should also show the loans disbursed separately for each sub-head of account to facilitate verification by the Accounts Officer.
- (v) The utilization certificates should be furnished within a 'reasonable time' after the loan is paid to the institutions. The Department of Central Government should prescribe, in consultation with the Finance Ministry target dates for the submission of the utilization certificates by the Department concerned to the Accounts Officer. The target date should, as far as possible, be not later than 18 months from the date of sanction of the loan.
- (vi) In respect of loans, the detailed accounts of which are maintained by Departmental Officers and where consolidated utilization certificates are to be furnished to Accounts Officer, the period of 18 months should be reckoned from the expiry of the financial year in which the loans are disbursed. The consolidated utilization certificates in respect of such loans paid each year should, therefore, be furnished not later than September of the second succeeding financial year.
- (vii) The due dates for submission of the Utilization Certificates should be specified in the letter of sanction for loan. The target date as specified should be rigidly enforced and extension should only be allowed in very exceptional circumstances in consultation with the Ministry of Finance under intimation to the Audit Officer and/or the Accounts Officer, as the case may be. No further loans should be sanctioned unless the sanctioning

authorities are satisfied about the proper utilization of the earlier loan sanctioned to an Institution, etc.

- (viii) In respect of loans sanctioned to departmental co-operative canteens in Government Offices the Heads of Departments should furnish the Utilization certificate.

Rule 227. Instalments of Loans : When a loan of public money is taken out in instalments, each instalment of the loan so drawn shall be treated as a separate loan for purposes of repayment of principal and payment of interest thereon except where the various instalments drawn during a financial year are, for this purpose, allowed to be consolidated into a single loan as at the end of that particular financial year. In the latter event, simple interest at the prescribed rate on the various loan instalments from the date of drawal of each instalment to the date of their consolidation shall be separately payable by the borrower. Repayment of each loan or the consolidated loan, as the case may be, and the payment of interest thereon shall be arranged by the borrower annually on or before the anniversary date of drawal or consolidation of the loan in such number of instalments as the sanctioning authority may prescribe. The sanctioning authority may allow, in deserving cases a moratorium towards repayment of principal but not for the payment of interest. Should it appear that there is an undue delay on the part of the debtor in taking out the last instalment of a loan the authority sanctioning the loan may at any time declare that loan closed, and order repayment of capital to begin. The Accounts Officer shall bring to notice any delay that appears to him to require this remedy and he shall take this step whether or not there are any dates fixed for taking of instalments.

NOTE 1. These instructions are applicable *mutatis mutandis* to loans, the repayments of which are made by other than annual instalments.

NOTE 2. –It must be remembered that the calculation fixing the amount of equal periodical instalments, by which a loan is repaid with interest, presupposes punctual payment of the instalment and that, if any instalment is not punctually repaid, the Interest amount will need to be recalculated.

Rule 228. Defaults in Payment : (1) The loan sanctions in favour of State / Union Territory Governments and the loan sanctions / undertakings / agreements in case of wholly Government owned companies / Public Sector Undertakings should invariably include provision for the levy of penal interest on overdue instalments of interest or principal and interest. The loan sanctions and agreements in all other cases should invariably stipulate a higher rate of interest and provide for lower rate of interest in the case of punctual payments. The penal or the higher rate of interest, as the case may be, shall not, except under special orders of Government, be less than 2 ½ % per annum above the normal rate of interest prescribed by Government from time to time for the loans advanced.

Rule 228. (2) Any default in the payment of interest upon a loan or in the repayment of principal, shall be promptly reported by the Accounts Officer, to the authority which sanctioned the loan. The responsibility of the Accounts Officer,

under this rule refers only to the loans, the detailed accounts for which are kept by him.

Rule 228. (3) Procedure to be followed in case of defaults in repayment of interest free loans or loans sanctioned at concessional rates of interest :

- (i) In the case of grant of interest free loans, e.g., loans to technical educational institutions for construction of hostels, prompt repayment should be made a condition for the grant of interest free loans. The sanction letter in such cases should provide that in the event of any default in repayment, interest at rates prescribed by Government from time to time will be chargeable on the loans.
- (ii) In the case of loans sanctioned at concessional rates of interest, e.g., loans under the *State Aid to Industries Act and Rules, the payment of subsidy (to cover the concession, viz., difference between the normal rate and concessional rate)*, should be made conditional upon prompt repayments of principal and payment of interest thereon by the party concerned.
- (iii) In the cases where in addition to interest free loans, subsidy is also provided to meet running expenses, e.g., loans to departmental canteens, the sanction letter should provide that in the event of any default in repayment, the defaulted dues would be recovered out of the subsidy payable.

Rule 228. (4) On receipt of a report of default referred to in sub-rule (2) above, the authority concerned shall immediately take steps to get the default remedied and also consider enforcement of penal /higher rate of interest on the overdue amounts. Where the sanctioning authority is satisfied, having regard to the circumstances of the case, that penal/higher interest need not be recovered, the borrower should ordinarily be asked to pay interest, at the normal rate prescribed in the loan sanction, on the overdue amount (of principal and/or interest) from the due date of payment up to the date of settlement of the default. The recovery of additional interest should not be waived except in special circumstances or where the period of defaults is very short, e.g., a few days.

Rule 229. Irrecoverable Loans : A competent authority may remit or write off any loans owing to their irrecoverability or otherwise.

Rule 230. Accounts and Control : (1) Subject to such general or specific directions as may be given by the Comptroller and Auditor-General in this behalf, detailed accounts of loans to Institutions and Organizations, etc., shall be maintained by the Accounts Officer who shall watch their recovery and see that the conditions attached to each loan are fulfilled.

Rule 230. (2) In the case of loans to private individuals the detailed accounts of such loans shall be maintained by the departmental authorities concerned who shall also watch their recovery and see that the conditions attached to each loan are fulfilled. The detailed procedure to be followed for the various categories of loans to private individuals should be laid down in consultation with Finance Ministry and the Comptroller and Auditor-General of India.

Rule 231. The instructions contained in this Chapter relating to cost of audit of grants-in-aid are applicable *mutatis mutandis* in the case of loans as well.

Rule 232. Annual Returns : Each Principal Accounts Officer shall submit to the concerned Ministry / Department of Government a statement in Form GFR 20 showing the details of outstanding Central Loans borne on his books as on 31st March each year. This statement should be submitted not later than the following 30th September and should indicate the aggregate of outstanding balance of loans, details of defaults, if any, in repayment of principal and/or interest and the earliest period to which the default pertains, against each State /Union Territory Government, foreign Government, Railway / Department of Posts funds, public sector and private sector enterprises, Co-operative and other institutions, etc. Where, however, detailed accounts are not required to be maintained by the Accounts Office, the statement should contain departmental authority wise aggregate balances of outstanding loans.

(5) Competent authority in case of credits wrongly classified : In cases where revenue is credited to a wrong head of account or credited wrongly under some misapprehension, the authority competent to order refund of revenue shall, in such cases, be the authority to whom the original receipts correctly pertain.

Rule 271. Compensation for accidental loss of property : No compensation for accidental loss of property shall be paid to an officer except with the approval of the Finance Ministry. While evaluating the proposal for compensation the following shall be specifically considered. Compensation will not ordinarily be granted to an officer for any loss to his property which is caused by floods, cyclone, earthquake or any other natural calamity or which is due to an ordinary accident, which may occur to any citizen, for example, loss by theft or as the result of a railway accident or fire, etc. The mere fact that at the time of the accident, the Government servant is technically on duty or is living in Government quarters in which he is forced to reside for the performance of his duties will not be considered as a sufficient ground for the grant of compensation.

III. DEBT AND MISCELLANEOUS OBLIGATIONS OF GOVERNMENT.

Rule 272. Public Debt : The public debt raised by Government by issue of securities shall be managed by the Reserve Bank. The Reserve Bank shall also manage securities created and issued under any other law or rule having the force of law provided such law or rule provides specifically for their management by the Reserve Bank.

Rule 273. Provident Funds : The procedure relating to the recovery of, subscriptions to and withdrawals from, the Provident Funds established under the provisions of Provident Funds Act, 1925 shall be regulated strictly, in accordance with the provisions of the respective Provident Fund Rules. Following instructions should be carefully observed by the Head of the Offices for correct preparation of the Provident Fund schedules.

- (i) A complete list of subscribers to each fund should be maintained in each disbursing office in the form of a schedule.
- (ii) Each new subscriber should be brought on this list and any subsequent changes resulting from his transfer or in the rate of subscription, etc., clearly indicated in a schedule.
- (iii) When a subscriber dies, quits service or is transferred to another office, full particulars should be duly recorded in the list.
- (iv) In the case of transfer of a subscriber to another office, the necessary note of transfer should be made in the list of both the offices.
- (v) From this list the monthly schedule to be appended to the pay bill should be prepared and tallied with recoveries made before the submission of the bill for payment.

Rule 274. (1) Crediting of Interest : The deposit accounts of these funds on the Government book will be credited with interest at such rates and at such intervals as may be prescribed by Finance Ministry in each case.

Rule 274. (2) Maintenance of a register for recovery of PLI Premia : All drawing officers should maintain in Form (GFR 38) record of Postal Life Insurance policy (PLI) holders. The register should be kept up to date, the names of the policy holders should be noted in alphabetical order according to surnames, leaving sufficient space between two entries to enable newcomers names being inserted in the right place. A separate entry should be made in the register for each policy in the case of a policy holder having more than one policy. On receipt of an intimation from the Director, Postal Life Insurance, Kolkata, about the issue of a policy in favour of a subscriber authorizing the Drawing Officer to commence recovery from pay, or on receipt of a Last Pay Certificate in respect of the subscriber, transferred from another office, the Drawings Officer should make a note of the particulars of the policy in the register. The name of the office from which the subscriber has been transferred should be invariably be noted in the remarks column. Wherever a subscriber is transferred to another office or his policy is discharged, his name should be scored out from the register, giving necessary remarks regarding discharge of policy or indicating the office to which the insurant has been transferred, as the case may be.

After the preparation of the monthly pay bill, the amount of recovery on account of PLI premium shown in the bill should be posted in the monthly column in the register with proper reference to the bills or the vouchers. The fact of excess / non-recovery should be briefly noted in the remarks column. Extracts should be attached to the relevant bills in support of the recoveries. While taking extracts it should be seen that the names of those insurants from whom recoveries were made in previous months but no recoveries have been made during the current month either on account of transfer or discharge of that policy or on account of leave salary being not drawn or the official being on leave without pay, should be included in the current month's schedule with necessary remarks noted against their names. Similarly, the remarks 'New Policy' or Transferred from..... Office, should be given in the schedule against the names of insurants entered for the first time in current month. Reasons for short or excess recovery should be noted briefly in the remarks column. In short, schedule of Postal Life Insurance recoveries to be attached to the bills, would be a record not only of those from whom the recovery has actually been effected but also of those from whom recovery was being effected previously but has not been effected.

APPENDICES

APPENDIX - 1

[See Rule 37]

INSTRUCTIONS FOR REGULATING THE ENFORCEMENT OF RESPONSIBILITY FOR LOSSES, ETC.

1. The cardinal principle governing the assessment of responsibility is that, every Government officer should exercise the same vigilance in respect of expenditure from public fund generally as a person of ordinary prudence would exercise in respect of the expenditure and the custody of his own money. While, the competent authority may, in special cases, condone an officer's honest errors of judgement involving financial loss if the officer can show that he has acted in good faith and done his best up to the limits of his ability and experience, personal liability shall be strictly enforced against all officers who are dishonest, careless or negligent in the duties entrusted to them.

2. In cases where loss is due to delinquencies of subordinate officials and where it appears that this has been facilitated by laxity of supervision on the part of a superior officer, the latter shall also be called strictly to account and his personal liability in the matter carefully assessed.

3.

- (a) The question of enforcing pecuniary liability shall always be considered as well as the question of other forms of disciplinary action. In deciding the degree of an officer's pecuniary liability, it will be necessary to look not only to the circumstances of the case but also to the financial circumstances of the officer, since it should be recognized that the penalty should not be such as to impair his future efficiency.
- (b) In particular if the loss has occurred through fraud, every endeavour should be made to recover the whole amount lost from the guilty persons and if laxity of supervision has facilitated the fraud, the supervising officer at fault may properly be penalized either directly by requiring him to make good in money a sufficient proportion of the loss or indirectly by reduction or stoppage of his increments of pay.
- (c) It should always be considered whether the depreciated value of the Government property or equipment lost, damaged or destroyed by the carelessness of individuals entrusted with their care should be recovered from the delinquent official. The depreciated value of the stores may be calculated by applying the 20% of depreciation in the case of vehicles, including cycles, and 15% in the case of calculating

machines, on the reduced balance every year. The amount to be recovered may be limited to the Government servant's capacity to pay.

4. When a pensionable Government servant is concerned in any irregularity or loss, the authority investigating the case shall bear in mind the provisions contained in Central Civil Services (Pension) Rules 1972 as amended from time to time and immediately inform the Audit Officer and/or the Accounts Officer, as the case may be, responsible for reporting on his title to Pension or Death-Cum-Retirement Gratuity, and the authority competent to sanction Pension or Death-Cum-Retirement Gratuity and it will be the duty of the latter to make a note of the information and see that the Gratuity or Death-Cum-Retirement Gratuity is not paid before a conclusion is arrived at as regards the Government servant's culpability and final orders are issued thereon.

5. The fact that Government servants who were guilty of frauds or irregularities have been demobilized or have retired and have thus escaped punishment, should not be made a justification for absolving those who are also guilty but who still remain in service.

6. It is of the greatest importance to avoid delay in the investigation of any loss due to fraud, negligence, financial irregularity, etc. Should the administrative authority require the assistance of the Audit Officer and/or the Accounts Officer, as the case may be, in pursuing the investigation, he may call on that officer for all vouchers and other documents that may be relevant to the investigation; and if the investigation is complex and he needs the assistance of an expert Audit Officer/Accounts Officer to unravel it, he should apply forthwith for that assistance to Government which will then negotiate with Audit Officer and/or the Accounts Officer concerned for the services of an investigating staff. Thereafter, the administrative authority and the Audit /Accounts authority shall be personally responsible within their respective spheres, for the expeditious conduct of the enquiry. In any case in which it appears that recourse to judicial proceedings is likely, the Special Police Establishment or the State Police should be associated with the investigation.

7. Depending upon the results of the inquiry, departmental proceedings and/or prosecution shall be instituted at the earliest moment against the delinquent officials concerned and conducted with strict adherence to the Central Civil Services (Classification, Control and Appeal) Rules, 1957, and other instructions prescribed in this regard by Government.

APPENDIX - 2

[See Note below Rule 48]

PROCEDURE FOR PREPARATION OF DETAILED ESTIMATES OF RECEIPTS

1. Revenue receipts. - These comprise (i) Central taxes, duties and cesses administered by the Central Board of Direct Taxes and the Central Board of Excise and Customs; (ii) local taxes and duties and other receipts in relation to the Union Territories without Legislature; (iii) interest receipts of loans and advances by the Central Government as also interest charged to commercial departments, etc., (iv) notional receipts from adjustments based on principles of accounting like grant assistance from foreign Governments or International institutions; and (v) all other revenue receipts including dividends on equity investments of the Central Government, cesses collected by the Ministries and Departments, etc.

2. Capital Receipts. - These comprise (i) Internal debt (market loan, treasury bills, etc.); (ii) External debt; (iii) Repayment of loans and advances made by the Central Government.

3.(1) Estimates of receipts of Central Taxes and Duties and External Aid receipts are prepared within the Finance Ministry by the Central Board of Direct Taxes, the Central Board of Excise and Customs and the Controller of Aid Accounts and Audit. Estimates of internal debt (market loans) receipts are framed by the Budget Division.

3.(2) Estimates of revenue receipts of the Union Territory Administrations will be furnished to the Finance Ministry by the concerned Audit Officer / Accounts Officer wherever departmentalization of accounts has not taken place and by the Controller of Accounts of the Union Territory Administrations where departmentalization of accounts has been introduced.

3.(3) Estimates of receipts in all other cases will be prepared by Controller of Accounts of each Department after obtaining necessary data by the 30th November from the various organizations / field units and such scrutiny as may be necessary in the light of policy decisions and other post Budget developments.

4. Estimates will be furnished to the Finance Ministry in prescribed forms (GFR 5, 5-A and 5-B) by the 31st December, each year for the ensuing Budget.

5.(1) In preparing the Revised Estimates, while previous year's actuals and current year's trends will be material factors to review the original Budget Estimates, special attention should be devoted to making as realistic an estimate as possible of receipts which are likely to materialize during the rest of the financial year.

5.(2) In framing the Budget Estimates for the ensuing year, the estimating authorities should exercise utmost care. While all receipts which can be foreseen

in the light of latest trends, decisions and developments must be provided for, care should be taken to ensure that undue optimism does not influence these estimates. Similarly, where the receipts have a seasonal character, due note should be taken thereof in preparing the estimates.

5.(3) Receipts by way of recoveries from Central Government Ministries / Departments, are to be excluded in preparing Receipt Estimates. Other recoveries (from the State and Union Territory Governments, foreign Governments, companies and statutory bodies, individuals, etc.) will, however, be included in the Receipt Estimates.

5.(4) Estimates of receipts by way of interest on loans and advances will be based on the terms of the loans sanctioned, as entered in the Loan Registers, including defaults, if any. The estimates should be realistic; that is to say, that the estimates should reflect not merely what is due but what is likely to be realized during the year together with the reasons for non-recovery of the difference between receipts due and assumed in the estimates. In the case of Public Sector Units, interest receipts expected from their internal resources should be distinguished from notional recoveries offset by corresponding expenditure provisions in the form of Plan/Non-plan subsidies and loans.

Similarly, where repayments due are refinanced by further Non-Plan loans or by conversion of past loans into equity, the details should be furnished.

5.(5) In reporting estimates of receipts by way of foreign grant assistance in cash or in kind, care should be taken to classify foreign grant receipts in cash under the Major Head '1605 External Grant Assistance' and those in the form of commodities under the Major Head '3606 Aid Materials and Equipment'. In the case of commodities grants, identical provision will be made in expenditure estimates under the Major head '3606 Aid Materials and Equipments' (both as debits to represent the notional payment therefor and as credits - recoveries in reductions of expenditure - to reflect the counter-balancing entries), as well as under the final functional Head of Account showing the final destination and use of the aid materials and equipment.

NOTE. - For utilization of cash grants, provision in expenditure estimates under the final functional Heads of Account will be necessary.

5.(6) In reporting the estimates, the estimating authorities should confine their estimates to those items of receipts which are to be accounted for finally in their own accounts and ultimately in the accounts of the Ministry / Department to which they are subordinate. All other receipts / recoveries entering the accounts of another Ministry / Department should be communicated to the concerned Ministry / Department for consolidation in their estimates (e.g., receipts of CGHS contributions and rent recoveries in respect of Government accommodation).

APPENDIX - 3

[See Note below Rule 48]

INSTRUCTIONS FOR PREPARATION OF DETAILED ESTIMATES OF EXPENDITURE FROM THE CONSOLIDATED FUND

1. For purpose of Budget Estimates, expenditure from the Consolidated Fund falls in two categories - Non-Plan expenditure and Plan expenditure -each comprising expenditure on revenue account and on capital account including loans and advances.

A. NON-PLAN EXPENDITURE ESTIMATES

2. To facilitate appropriate scrutiny and consolidation of Expenditure Estimates for reporting to the Finance Ministry, the Financial Adviser in each Ministry / Department will obtain detailed estimates and other supporting data from each of the estimating authorities under the control of the Ministry / Department, in appropriate forms, sufficiently in advance.

3. The framing of the Revised Estimates for the current year should always precede estimation for the ensuring year. The Revised Estimates should be framed with great care to include only those items which are likely to materialize for payment during the current year, in the light of (i) actuals so far recorded during the current year, compared with the actuals for corresponding period of the last and previous years, (ii) seasonal character or otherwise of the nature of expenditure, (iii) sanctions for expenditure and orders of appropriation of re-appropriation already issued or contemplated and (iv) any other relevant factor, decision or development.

The Budget Estimate for the ensuring year should likewise be prepared on the basis of what is expected to be paid, under proper sanction, during the ensuring year, including arrears of previous years, if any. Due attention to considerations of economy must be paid and while all inescapable and foreseeable expenditures should be provided for, care should be taken that the estimate is not influenced by undue optimism.

4. No lump sum provision will be made in the Budget except where urgent measures are to be provided for meeting emergent situations or for meeting preliminary expenses on a project / scheme which has been accepted in principle for being taken up in the financial year. In latter cases Budget provision will be limited to the requirements of preliminary expenses and for such initial outlay, as, for example, on collection of material, recruitment of skeleton staff, etc.

Provision for a 'token' demand should not be made in the Budget Estimates for the purpose of seeking approval in principle for big schemes without the full financial implications being worked out and got approved by the appropriate authorities. In accordance with instructions contained in Paragraph (vii) of

Appendix (6), a 'token' demand can be made during the course of a year for a project / scheme when the details thereof are ready and funds are also available for undertaking it but it cannot be started without Parliament's approval, it being in the nature of a 'New Service / New Instrument of Services'.

5. All estimates should be prepared on gross basis and 'voted' and 'charged' portions must be shown separately; even expenditure met partly or fully from receipts taken in reduction of such expenditure or those counterbalanced by receipts credited as revenue to the Consolidated Fund, must be reported in such estimates on gross basis. Care should also be taken to ensure that all notional receipts reported in 'Receipt Estimates' (such as interest receipts fully or partly subsidized, loan repayment receipts partly or fully refinanced through further loans or conversions into equity, receipts of foreign grant assistance in the form of commodities or material, etc.) are properly matched by adequate provisions in expenditure estimates.

6. The estimates of Non-Plan expenditure should include all items which are fully accounted for in the accounts of the Ministry / Departments to which the estimating authority is subordinate; they shall also cover expenditure, if any, in Union Territories without Legislature, whether provided for in the demands of the said Ministry / Department or in the 'Area' demand of the concerned Union Territory. Estimates of 'Works Expenditure', if any, against the provisions in the demands of the Ministry of Works and Housing, as well as expenditure on pensions (including commutation payments, gratuity payments, pension contributions, etc.) interest payments, loans and advances to Government servants, etc., which are provided for in the centralized Grants / Appropriations controlled by the Finance Ministry should be furnished to the Ministry of Works and Housing and the Finance Ministry.

7. The estimate of establishment charges should be framed taking into account the trends over preceding three years and other relevant factors like changes in rates of pay, allowances, number of posts and their filling and the economy instructions issued by the Ministry of Finance from time to time.

8. Expenditure estimates will be prepared with full accounts classification, i.e., by Major/Sub-Major Head, Minor Head, Sub-Head and Detailed Head of Account. The correctness of accounts classification must be ensured in each case and in case of any doubt, cleared beforehand with the Ministry of Finance, Budget Division. The relevant Grant number and title of Appropriation should also be mentioned to facilitate identification of the provision in Budget Estimates for the current year.

9. Unless otherwise indicated by the Finance Ministry, estimates of Non-Plan expenditure (both Revised Estimates for the current year and Budget Estimates for the ensuing year) should reach the Finance Ministry, Department of Economic Affairs, Budget Division, by the 30th November, each year, in triplicate in Form GFR 7, a separate form being used for each Major Head of Account.

10. To facilitate appreciation and scrutiny of the estimates, any major variations between the Budget and Revised Estimates for the current year and also between the Revised Estimates for the current year and Budget Estimates for the ensuing year should be explained cogently. In particular, all Non-Plan provisions for subsidy, capital investment or loan to a Public Sector Undertaking, must be explained by indicating their purpose and the extent to which they are intended to cover losses, working capital needs, debt or interest liabilities of the undertaking.

11. Wherever the proposed estimates attract the limitations of 'New Service/New Instrument of Service', the fact must be specifically highlighted. The guidelines to be followed in this regard are indicated in Annexure - I to this Appendix. For all 'new' schemes, other than purely 'works' projects, the estimates proposed should be supported by details set out in Annexure - II to this Appendix. In the case of provisions of 'Grants-in-aid' to non-Government entities, the full purpose thereof and the nature of the grants, whether recurring or non-recurring, should also be indicated.

12. All provisions for transfer of Government assets to Public Sector Undertaking and other non-Government entities must also be highlighted, indicating whether the transfer is by way of grants or by way of equity investment or loan. Similarly, in the case of nationalization or take-over of any private sector assets, the related provisions in estimates must be supported by full details, such as the effective date of take-over, the agreed compensation amount and the manner of its payment, etc. In cases of takeover, where the assets are simultaneously transferred to a Public Sector Undertaking, it must be ensured that the estimates provide for (i) payment of compensation for the take-over, (ii) for transfer of assets to the Public Sector Undertaking, by means of recovery of compensation payment to be taken in reduction of expenditure, and (iii) provisions for equity or loan to the Public Sector Undertaking.

B. PLAN EXPENDITURE ESTIMATES

13. The Planning Commission prescribe each year the form and the manner in which proposals are required to be submitted to them for determining the Plan allocations for the ensuing year. The Financial Adviser in each Ministry / Department of the Central Government will accordingly call for requisite data from the estimating authorities, public sector and other enterprises under the control of the Ministry / Department, etc. The approved Plan allocations will be communicated by the Planning Commission to the Central Ministries / Departments, indicating the total Plan outlay approved for each scheme / organization and the extent to which it is to be met from extra-budget resources and from provisions in the Demands for Grants.

14. Subject to such directions as may be issued by the Finance Ministry from time to time, the Revised Estimates for the current year and Budget Estimates of the ensuing year, in respect of Plan provisions, are to be sent to the

Finance Ministry in Forms GFR 7-A and GFR 7-B respectively in quadruplicate. For furnishing these estimates, instructions for preparation and submission of Non-Plan Expenditure Estimates will apply to the extent relevant; in addition, the following points should also be borne in mind :-

- (i) Each of the Forms GFR 7-A and GFR 7-B is to be used separately for Central Plan Schemes, Centrally Sponsored Plan Schemes, Plan Schemes included in the Plan for each State or Union Territory.
- (ii) Such part of the approved budgetary support for Plan outlay as relates to 'works expenditure' and has been accepted by the Ministry of Works and Housing for inclusion in their Demands for Grants should be excluded by the other Ministries / Departments in reporting the estimates to the Finance Ministry in Forms GFR 7-A and GFR 7-B.
- (iii) In the case of Plan, provisions for equity investments and loans to public sector and other enterprises, as well as those for grants-in-aid, specific schemes, for which the outlay is provided and the extent for each of them is also to be indicated clearly.
- (iv) Provisions for Plan expenditure on Central and Centrally Sponsored Plan Schemes, including such expenditures in Union Territories, are to be included in the relevant demand of the Administrative Ministry / Department and not in 'Area' Demand of the concerned Union Territory.
- (v) The extent to which the provisions indicated relate to 'Science and Technology' component should also be indicated clearly.

APPENDIX – 4

[See Note below Rule 48]

PROCEDURE FOR COMPILATION OF DETAILED DEMANDS FOR GRANTS

1. The Demand for Grants are presented to Parliament at two levels. The Main Demands for Grants are presented to Parliament by the Ministry of Finance along with the Annual Financial Statement while the Detailed Demands for Grants are laid on the Table of the Lok Sabha by the concerned Ministries a few days in advance of the discussion of the respective Ministries Demands in that House.

Both the Main Demands for Grants as also the Detailed Demands for Grants comprise three parts each, viz. -

Part - I shows the Service for which the Demand (or Appropriation) is intended and the estimates of the gross amount, separately for Voted and Charged Expenditure, under Revenue and Capital (including Loan) sections required in the ensuring year in respect of that Service.

Part - II shows break up of the estimates separately for Plan and Non-Plan expenditure. In the Main Demands for Grants, the break up is exhibited up to the level of Major and Minor Heads of Account which correspond to functions and programmes of the Government. Below the Minor Head level, further break up is given in the Main Demands only in respect of activities / schemes / organizations where the provision is Rs. 10 lakh or more, provision below that limit in respect of activities / schemes / organizations being clubbed together.

In the Detailed Demands for Grants the break up is up to the detailed head level and where the provision exceeds Rs. 10 lakh, break up by objects of expenditure is also given. Besides, all activities / schemes / organizations for which provision is Rs. 1 lakh or more are shown distinctly in this in this part; in cases where the provision is less than Rs. 1 lakh the activities / schemes / organizations are clubbed together.

The Detailed Demands for Grants also exhibit actuals of the previous year in Part - II.

Part - III shows, both in the Main Demands for Grants as well as in the Detailed Demands for Grants, the details of recoveries by Major and Minor Heads of Account to be taken in reduction of expenditure provided for in the Demand or Appropriation.

2. All Detailed Demands for Grants of a Ministry / Department are consolidated in a single volume and presented to Lok Sabha by the concerned Ministry / Department. The Detailed Demands show 'actual expenditure' as per accounts in the previous year, Budget and Revised Estimates for the current years and Budget Estimates for the ensuing year, each showing 'Plan' and 'Non-Plan' items separately.

- (i) The process of compilation should start in July / August with the preparation of a manuscript skeleton. Manuscript skeletons of Detailed Demands for the ensuing year should be prepared by using the printed Detailed Demands for the current year by making necessary alterations therein. New sub-heads sanctioned by the Finance Ministry, if any, and those expected to be required should also be added in the manuscript at appropriate places. The manuscript should then be sent to the designated press for a proof. Where necessary, a second proof may be obtained. The printed skeletons should be available with the Ministries / Departments preferably by the 15th October each year.
- (ii) Two copies of the Demand skeleton may then be sent to the Principal Accounts Officer, as the case may be, for filling the 'Actuals' column for the previous year and to return one copy duly filled in.
- (iii) In the master copy of the Demand, the Ministry / Department will then post (1) the figures of actuals as reported by the Principal Accounts Officer / Accountant-General; (2) Revised Estimates for the current year and the Budget Estimates for the ensuing year from the office copy of the SAEs sent to Finance Ministry. While posting these entries, care should be taken to ensure that –
 - (a) "Charged" items are shown in *italics* and are not mixed up with "Voted" provisions;

- (b) posting is done accurately against the proper item / head of account including “recoveries”, if any, taken as reduction of expenditure;
- (c) new items are inserted at the proper place under the relevant minor head;
- (d) “Plan” and “Non-Plan” provisions are noted in the relevant columns;
- (e) totals of sub-heads, minor heads, major heads, etc., are correctly worked out and posted; that totals of Revenue section and Capital section as well as the grand totals are correct and show “Charged” and “Voted” figures distinctly; and
- (f) new sub-head (opened through Supplementary Demands) or otherwise or any change in the numbering and nomenclature sanctioned by the Budget Division since the proof of the skeleton should also be incorporated in the Master Copy.

NOTE. – A sub-head should appear in the Demand only when there is provision thereunder, either in the current year (Budget or Revised) or the ensuing year. Wherever only actuals of the previous year pertaining to a sub-head are to be exhibited, this should be done by inserting suitable footnote on the relevant page.

- (iv) The process of compilation and printing of the Demands should be undertaken in stages.

3. The *first proof* of individual Demands may be obtained after posting actuals of previous year and Non-Plan estimates (preferably by 15th December). The *second proof* may be similarly obtained (preferably by 15th January) after “Plan” Revised estimates are posted in the first proof. As soon as “Plan” provisions for the ensuing year are finalized and communicated to the Finance Ministry, they should be posted in the second proof. Before obtaining the third proof, the following material may also be added.

(A) Main Demands for Grants :

- (i) Notes on the Demands for Grants highlighting the following :-
 - (a) The objectives of the concerned Ministry / Department, how the programmes undertaken or contemplated contribute towards attainment of such objectives and the agencies entrusted with the execution of such programmes;
 - (b) Details of important provisions included in Demands for Grants with particular emphasis on Plan provisions and new items of expenditure;
 - (c) Cogent reasons for significant variations between the Budget Estimates and Revised Estimates for the current year and between the Revised Estimates, for the current year and the Budget Estimates for the ensuing year;
 - (d) Provisions for subsidy in lieu of interest on loans by the Government or token provisions for concessional rate of interest (along with number of likely cases involved and financial implications, if determinable); and
 - (e) Complete details of the estimated cost of a project together with its economics and financial implications (whenever these estimates are

revised and the cost of escalation exceeds 20 percent of the sanctioned cost or Rs. 3 crores, whichever is more, full reasons therefor and the effect thereof on the economics of the projects should also be included in the Notes on Demands).

(ii) A statement giving details of provisions in the Budget which attract limitations of "New Service"/"New Instrument of Service".

(B) Detailed Demands for Grants :

- (a) Statement showing estimated strength of establishment and provision therefor (both Non-Plan and Plan) for Budget and Revised current year and Budget next year;
- (b) Statement showing provisions in ensuing Budget for subsidy in lieu of interest on loans by the Central Government, including token provisions for concessional rate of interest, together with particulars and nature of the subsidy or concession, number of likely cases involved and financial implications, if determinable;
- (c) Plan Budget link;
- (d) Statement showing details of important Non-Plan provisions in ensuing Budget of Rs. 5 lakhs (Rupees Five Lakhs) or more;
- (e) Statement showing details of provisions in ensuing Budget for grants-in-aid to non-Government bodies;
- (f) Works Annexure indicating details of works costing Rs. 10 lakhs (Rupees ten lakhs) or above individually;
- (g) Statement showing revised cost estimates of projects of Public Sector Undertakings and Departmental Undertakings;
- (h) Statement showing particulars of transfer or gift of Government property of value exceeding Rs. 1 lakh (Rupees One Lakh) to non-Government bodies.
- (i) Summary of receipt estimates of Union Territory Administrations, by Major Heads of Accounts (this will be appended to Area Demands only).

4. In addition the Detailed Demands for Grants will also include where necessary, "Notes on Important Projects and Schemes", e.g., where the Ministry / Department do not bring out performance Budgets.

5. *The third proof on receipt from the press should be thoroughly checked for accuracy of all estimates and other data, as these must necessarily conform with the main Demands, proofs of which, by this time, would be available from the Finance Ministry. Therefore for obtaining page proof, all pages should be serially numbered and table of contents prepared. The page proof received from the Press should be fully scrutinized. The correct page proof should be shown to the Budget Division before final print order is given to the Press.*

6. A sample printed copy of the Demands should be scrutinized on receipt from Press and where necessary an errata may be prepared, got printed and pasted by the Press in individual copies of the Printed Demands.

7. The Demands of smaller Departments like Lok Sabha, Rajya sabha, Department of Parliamentary Affairs, Staff, Household and Allowances of the President, Secretariat of the Vice-President and Union Public Service Commission which are clubbed in a single volume are to be prepared and presented by the Ministry of Finance.

APPENDIX – 5

[See Note below Rule 48]

PROCEDURE FOR CONSOLIDATION OF THE ESTIMATES AND DEMANDS FOR GRANTS

The details of each Demand should be grouped under the sub-heads fixed by the Finance Ministry. The sub-heads as they appear in the Demands for Grants for a year (as voted by the Lok Sabha) will be the sub-heads prescribed by the Finance Ministry for that year. Any changes in the prescribed sub-heads found necessary by the Departments of the Central Government or spending authorities or the Audit Officers / Accounts Officers during the course of the financial year will be introduced only under the formal authority of the Finance Ministry. A sub-head which remains inoperative for three consecutive years is automatically deleted from the Demands for Grants. Its revival will also require the formal sanction of the Finance Ministry.

NOTE. – Subject to general or special orders of Government these sub-heads will be treated as the units of appropriation within the meaning of Rule 6 of the Delegation of Financial Powers Rules, 1978.

2. The Demand for each Union Territory should include expenditure actually to be incurred in the area, whether 'voted' or 'charged', which is under the administrative control of the Administration concerned. The Heads of expenditure included in the other demands should, however, be shown in a Summary Form at the end of Part – I of the demand so as to bring out the total expenditure of the Administration.

3. In Part – III of the Demands, showing the details of the estimates under "Pay of Officers" and "Pay of Establishment" there will be two Columns for showing the strength as it exists at the time of preparation of the estimates and the strength proposed for the next financial year in respect of which the estimates have been included in the demand.

4. All the new items of expenditure or fresh charges are to be printed in this type and are to be shown separately under the correct sub-head and properly described.

5. The 'Charged' items should be shown in *italics* throughout and distinction between 'Charged' and 'Voted' expenditure should be made in all the columns.
6. A reserve should be shown as a distinct sub-head of a Demand.
7. The units "Pay of Officers" and "Pay of Establishments" should be shown as distinct sub-heads. They should not be mixed up with other sub-heads.
8. Leave salary should be shown as a distinct item and classified under the Head "Pay of Officers" or "Pay of Establishments", as the case may be.
9. The distribution of totals between 'Voted' and 'Charged' of the sub-heads in Part – II of Grant or Appropriation should agree with those given in Part – III of the Grant or Appropriation, that is details, under each sub-head.
10. Combined establishments, the charges of which are distributed between the Central Government and a State Government or between two Departments of the Central Government shall be exhibited at their full amount in one place and the portions recoverable from the State Governments or other departments, as the case may be, shown as 'recoveries' in Part – IV of Demands as "Establishment charges recovered from other Government, Departments, etc." Lump sum amounts recoverable, from other Governments should similarly be exhibited as 'recoveries' without any details. Lump sum payments shall, however, be shown under the sub-head "Establishment charges paid to other Governments, Departments, etc." and shall require the authority of Parliament.

APPENDIX – 6

[See Note below Rule 48]

PROCEDURE TO BE FOLLOWED IN CONNECTION WITH THE DEMANDS FOR SUPPLEMENTARY GRANTS

An excess over the sanctioned Grant or Appropriation may arise owing to either –

- (a) an unforeseen emergency; or
- (b) under-estimated or insufficient allowance for factors leading to the growth of expenditure.

In the case of an excess of either type the Head of the Department or the Controlling Officer concerned should proceed as follows :-

- (i) He should, in the first place, examine the allotments given to other Disbursing Officers under the same detailed head within the unit of appropriation, and transfer to the Disbursing Officer who requires an additional allotment such sum as can be permanently or temporarily spared. Since appropriation audit is ordinarily conducted against total allotments for a unit, reappropriation in the technical sense of the word is

not involved in such cases. The process amounts only to redistribution which the Controlling Officer can ordinarily effect without reference to any other authority.

- (ii) Should he find such redistribution impossible he should examine the allotments against other detailed heads inside the primary units of appropriation, with the object of discovering probable savings and effecting a transfer. Where such redistribution is feasible, he should if he has been vested with the necessary powers, carry it out. Otherwise, he should obtain the sanction of the competent authority.
- (iii) If the provision of funds from within the primary units proves to be impossible, an examination of the whole grant should be undertaken to see whether there are likely to be savings under any of the other units of grant or appropriation which can be utilized to meet it. If so, he should proceed as indicated in Clause (ii) above.
- (iv) If such savings are not available, it should be seen whether special economies can be effected under other sub-heads. If funds cannot be provided by either of these methods, it will have to be considered whether the excess should be met by postponement of expenditure or whether an application for supplementary grant or appropriation should be made.
- (v) The Supplementary Demand for Grants shall be presented to the Parliament in a number of batches as decided by the Ministry of Finance, Department of Economic Affairs. The first batch shall normally consist of requirements of the following nature :-
 - (a) Cases where advances from Contingency Fund of India have been granted, which are required to be recouped to the Fund.
 - (b) Payment against a court decree, which cannot be postponed; and
 - (c) Cases of additional requirement of funds for making immediate payments, which can be met by re-appropriation of savings in the Grant but attract the limitation of New Service / New Instrument of Service.
- (vi) All applications for supplementary grants or appropriations should be submitted by the Department of the Central Government administratively concerned to the Finance Ministry on such dates and in such forms / batches as may be prescribed by the latter from time to time.
- (vii) On receipt of an application for a supplementary grant, the Finance Ministry will review the position of the grant of appropriation as a whole with reference to the known actuals of the year to date and the actuals and estimates for previous years. If after this examination, the Finance Ministry comes to the conclusion that it should be possible for the Administrative Department to meet the expenditure from within the sanctioned grant either from normal savings or by special economies or in the last resort by

judicious postponement of other expenditure or in the last resort by judicious postponement of other expenditure, the Administrative Department will be so informed and no supplementary demand will be presented to Parliament. If, on the other hand, the Finance Ministry considers that a supplementary grant will be necessary, a demand will be placed before Parliament.

- (viii) If during the course of the year it is found necessary to incur expenditure on a 'New Service' not provided for in the annual budget the Administrative Department shall explain to the Finance Ministry why the expenditure was not provided for in the original budget and why it cannot be postponed for consideration in connection with the next budget. The Finance Ministry, if satisfied on these points, will consider whether it would not be reasonable to ask the department concerned to curtail its other expenditure so as to keep the total within the grant. Ordinarily, no "new service" or item will be accepted by the Finance Ministry, unless the department concerned can guarantee that the extra expenditure will be met from normal savings or by special economies within the grant. Cases which involve additional grant will normally be accepted by the Finance Ministry only if they relate to matters of real imperative necessity or to the earning or safeguarding of revenue. The demand for a supplementary grant of appropriation or a token vote in respect of a "new service" will be presented to Parliament as soon as practicable after the need arises.

NOTE. – The expression 'New Service' wherever used in this Appendix includes – 'New Instrument of Service'.

(II) Subject as aforesaid, the Government of each State specified in Part 'B' of the First Schedule shall, as from the commencement of the Constitution, be the successor of the Government of the corresponding Indian State as regards all property and assets and all rights, liabilities and obligations, whether arising out of any contract or otherwise, other than those referred to in Clause (1).

From the commencement of the Constitution, the transfer of land between the Union and the State Government shall be regulated by mutual agreement except when they are acquired under some Act. The Union Government have laid down the following principles to be observed in regard to certain points :-

(i) (a) When land belonging to a private party has to be acquired on behalf of the Union Government acquisition shall be at the expense of that Government.

(d) Solatium of 15 per cent payable under the Land Acquisition Act will not apply to such transfers.

(ii) *Land surplus to the requirements of the Union Government :-* When the Union Government no longer required land in their possession, the Government of the State in which it is situated will be given the option of assuming possession of the whole or any portion thereof subject to the following conditions :-

- (a) the Union government themselves shall be the judges of whether they require to retain any particular land or not;
- (b) if the State Government desire to assume possession of the land, the option to do so shall be exercised within six months of the date on which the Union Government signify their intention of surrendering the land;
- (c) the amount payable for the land will in all cases be its market value at the date of transfer;
- (d) when the State Government desire to assume possession of only a portion of the land surrendered, they shall be entitled to do so only if the value of the land as a whole is not materially reduced by the division; and
- (e) if the State Government do not desire to assume possession of any land on the foregoing terms, the Union Government will be free to dispose of to a third party. Before, however, so disposing of the land, the Union Government will consult the State Government as to the levy of ground rent or assessment and the conditions, if any, subject to which it should be sold and they will, as far as possible, dispose of the land subject to the conditions which the State Government may desire to impose. The Union Government are not, however, bound to obtain the concurrence of the State Government in all cases, and in cases of disagreement the Union Government shall be the sole judge of the terms and conditions to be imposed.

(iii) *Determination of Disputes as to Titles.* - Disputes as to title between the Union Government and a State Government shall be determined by the Supreme Court.

2. *Market value defined.* -Market value when applied to land may be defined as the price which the land would fetch if sold in the open market subject to the

ground rent or assessment shown against it in the revenue registers, or, if no ground rent or assessment shown against it in the revenue registers, subject to a ground rent or assessment levied at the rate at which ground rent or assessment is actually being levied on similar lands in the neighborhood excluding all cases in which such similar lands in the neighborhood are held free of ground rent or assessment at favorable or unfavorable rates of ground or assessment. This is the market value which has to be credited or debited, as the case may be, in the case of all transactions between the State Governments and the Union Government or between the Union Government and State Governments or the Railways.

“CHECK AGAINST PROVISION OF FUNDS”

The pre-check to be applied to all payments by the departmentalized Accounts Officers includes a check against provision of funds also. It is an important part of the functions of the Accounts Office to see that no payment is made in excess of the budget allotment. In order to exercise an effective check in this behalf, a separate register (DDO-wise Bill Passing-cum-Expenditure Control Register –Form CAM –9) should be maintained in the Accounts Officer for each Drawing Officer and by sub-heads and units of appropriation so as to ensure at the time of passing each bill that the amount of the bill under check is covered by Budget allotment. If the amount of any bill leads to excess over the Budget allotment or is not covered by an advance from the Contingency Fund, the Accounts Officer should decline payment under advice to the authority controlling the grant so that the latter could arrange for additional funds. An Appropriation Audit Register (Form CAM – 62) shall be maintained.

NOTE. – In cases where payment of a bill/claim would lead to excess over the provision under any unit of appropriation the payment may be made by the Pay and Accounts Office only on receipt of an assurance in writing from the Ministry/Head of Department controlling the grant that the expenditure involved is not on a New Service, or New Instrument of Service; that necessary funds to accommodate the expenditure will be provided for in time by issue of re-appropriation order, etc., that a note to the effect has been kept for further action, and that the grant as a whole (i.e., separately under Revenue and Capital Sections) is not likely to be exceeded. This applies in respect of any new item of expenditure, provision for which does not exist in the Budget (as distinct from expenditure on “New Service” or “New Instrument Service” not provided in the Budget) as well as in cases where the existing provisions is not sufficient to cover the payments.

If such a contingency in regard to inevitable payment of a bill should arise towards the close of financial year and the grant as a whole is likely to get exceeded thereby, order of the FA on behalf of the Chief Accounting Authority would have to be sought.

In case the additional funds required are to be made available merely by reallocation (and not by re-appropriation) of savings, if any, under the same sub-head of appropriation, the related claim will be passed for payment only after additional funds therefor are allocated in writing by the Controlling Officer.

APPENDIX - 15
[See Rule 204 (vii) (b)]

FORMULA FOR PRICE VARIATION CLAUSE

The formula for Price Variation should ordinarily include a fixed element, a material element and a labour element. The figures representing the material element and the labour element should reflect the corresponding proportion of input costs, while the fixed element may range from 10 to 25%. That portion of the price represented by the fixed element, will not be subject to variation. The portions of the price represented by the material element and labour element alone will attract Price variation. The formula for Price variation will thus be :

$$P_1 = P_0 \left\{ F + a \left[\frac{M_1}{M_0} \right] + b \left[\frac{L_1}{L_0} \right] \right\} - P_0$$

Where P_1 is the adjustment amount payable to the supplier (a minus figure will indicate a reduction in the Contract Price)

P_0 is the Contract Price at the base level.

F is the Fixed element not subject to Price variation.

a is the assigned percentage to the material element in the Contract price.

b is the assigned percentage to the labour element in the Contract Price.

L_0 and L_1 are the wage indices at the base month and year and at the month and year of calculation respectively.

M_0 and M_1 are the material indices at the base month and year and at the month and year of calculation respectively.

If more than one major item of material is involved, the material element can be broken up into two or three components such as M_x , M_y & M_z . Where price variation clause has to be provided for services (with insignificant inputs of materials) as for example in getting Technical assistance normally paid in the form of per diem rates, the price variation formula should have only two elements viz. a high fixed element and a labour element. The fixed element can in such cases be 50% or more, depending on the markup by the supplier of the Perdiem rate vis-à-vis the wage rates.
